Case No. CK-2008-0202

ORDER APPROVING INTERCONNECTION AGREEMENT

Issue Date: January 29, 2008

Effective Date: February 8, 2008

This order approves the Interconnection Agreement executed by the parties and filed by YMax Communications Corp. (YMax).

On December 19, 2007, YMax filed an application with the Commission for approval of an Interconnection Agreement with Southwestern Bell Telephone, L.P. d/b/a AT&T Missouri (AT&T Missouri). The Agreement was filed pursuant to Section 252(e)(1) of the Telecommunications Act of 1996.¹ Both YMax and AT&T Missouri hold certificates of service authority to provide basic local exchange telecommunications services in Missouri.

Although AT&T Missouri is a party to the Agreement, it did not join in the application. On December 28, 2007, the Commission issued an order making AT&T Missouri a party in this case and directing any party wishing to request a hearing to do so no later than January 17, 2008. No requests for hearing were filed.

The Staff of the Commission filed a memorandum and recommendation on January 22, 2008, recommending that the Agreement be approved.

¹ See 47 U.S.C. § 251, *et seq.*

Discussion

Under Section 252(e) of the Act, any interconnection agreement adopted by negotiation must be submitted to the Commission for approval. The Commission may reject an agreement if it finds that the agreement is discriminatory or that it is not consistent with the public interest, convenience and necessity.

The Staff memorandum recommends that the Agreement be approved and notes that the Agreement meets the limited requirements of the Act in that it is not discriminatory toward nonparties and is not against the public interest. Staff recommends that the Commission direct the parties to submit any amendments to the Commission for approval. Staff also recommends that the Commission order the parties to submit a sequentially numbered copy of the Agreement.

Findings of Fact

The Missouri Public Service Commission, having considered all of the competent and substantial evidence upon the whole record, makes the following findings of fact.

The Commission has considered the application, the supporting documentation, and Staff's verified recommendation, which are hereby admitted into evidence. Based upon that review, the Commission concludes that the Agreement meets the requirements of the Act in that it does not discriminate against a nonparty carrier and implementation of the Agreement is not inconsistent with the public interest, convenience and necessity. The Commission finds that approval of the Agreement shall be conditioned upon the parties submitting any amendments to the Commission for approval pursuant to the procedure set out below.

Amendment Procedure

The Commission has a duty to review all resale and interconnection agreements, whether arrived at through negotiation or arbitration, as mandated by the Act.² In order for the Commission's role of review and approval to be effective, the Commission must also review and approve or recognize amendments to these agreements. The Commission has a further duty to make a copy of every resale and interconnection agreement available for public inspection.³ This duty is in keeping with the Commission's practice under its own rules of requiring telecommunications companies to keep their rate schedules on file with the Commission.⁴

The parties to each resale or interconnection agreement must maintain a complete and current copy of the agreement, together with all amendments, in the Commission's offices. Any proposed amendment must be submitted pursuant to Commission rule 4 CSR 240-3.513(6).

Conclusions of Law

The Missouri Public Service Commission has arrived at the following conclusions of law.

The Commission, under the provisions of Section 252(e)(1) of the federal Telecommunications Act of 1996,⁵ is required to review negotiated interconnection agreements.
