

CONFIDENTIAL DESIGNATIONS

The Empire District Electric Company d/b/a Liberty

EO-2026-0230

RE: All confidential forecasting, analyses, and content of Liberty's 2026 Integrated Resource Plan Annual Update

Certain information provided in the IRP Annual Update is designated "Confidential" in accordance with Commission Rule 20 CSR 4240-2.135(2)(A)5, as it contains proprietary or otherwise confidential reports, work papers, or other documentation produced by consultants. As part of the work performed in the 2026 IRP Annual Update, Liberty enlisted the expertise of consultants such as Itron and Horizons Energy. The work performed by these consultants includes proprietary models that create forecasts for company energy, peaks, and fuel and market prices. As a result, the work and results provided by these consultants is designated Confidential.

Provided below is the location, page number, and brief summary of all information marked confidential in Liberty's IRP Annual Update.

Section	Page Number	Summary
2	6	Table 2.1 – Net Summer Peak Forecast (MW)
2	6	Table 2.2 – Net Winter Peak Forecast (MW)
2	6	Table 2.3 – Native Load Requirement Energy Forecast (MWh)
2	7	Table 2.4 – Net Summer Peak Forecast (MW) Comparison
2	7	Table 2.5 – Net Winter Peak Forecast (MW) Comparison
2	7	Table 2.6 – Net Native Load Requirement Energy Forecast (MWh) Comparison
2	8	Table 2.7 – Customer Count Forecast
2	8	Table 2.8 – Customer Count Forecast Comparison
2	10	Table 2.9 – SS Delivered Natural Gas Prices \$/MMBtu
