

BEFORE THE PUBLIC SERVICE COMMISSION OF THE STATE OF MISSOURI

In the Matter of the Application of Spire)
Missouri Inc. d/b/a Spire for a Variance) Case No. GE-2026-0249
from Standards of Quality Rule)

ORDER DIRECTING STAFF RESPONSE AND SETTING DEADLINE FOR OTHER RESPONSES

Issue Date: April 7, 2026

Effective Date: April 7, 2026

On April 3, 2026, in response to a Commission directive, the Staff of the Commission (Staff) filed a recommendation on the above-referenced application of Spire Missouri Inc. d/b/a Spire in which Staff recommended the Commission grant the variance requested by Spire, subject to five conditions. To accommodate Spire's request for expedited treatment of its application, Staff also outlined a procedure by which Spire could demonstrate to the Commission either that there will be no detrimental effects of elevated gas temperature on the gas distribution system or that pressure reduction will be needed prior to injection of renewable natural gas into the gas distribution system at elevated gas temperatures.

On April 6, 2026, Spire filed its *Response to Staff Recommendation*, stating that it had performed Staff's recommended procedure and provided the results. Spire also stated that it accepts Staff's five recommended conditions to the granting of a variance.

The Commission will direct Staff to review Spire's April 6th filing and file an updated recommendation. The Commission will also set a deadline for other parties to respond.

THE COMMISSION ORDERS THAT:

1. Staff shall review the documentation filed by Spire on April 6th and, no later than April 10, 2026, file either an updated recommendation regarding Spire's application or a request for an extension of time by which to file its recommendation.
2. Any other parties wishing to file a response shall do so no later than April 10, 2026. No other responses will be accepted after that date.
3. This order is effective when issued.
