LOCAL EXCHANGE SERVICE

TDS LOCAL ENHANCED

A. General

Missouri Call Plan is an optional calling plan that provides one-way calling for all customers located in the exchanges of New London Telephone Company to Hannibal.

B. Regulations

1. Missouri Call Plan is provided to all classes of business and residence service.
2. A separate package plan will apply to each line on a multiline service.
3. This plan provides customers with ten digit dialing to Hannibal. If a customer dials 1+, the call will default to the customers toll provider.
4. Missouri Call Plan applies only to direct dialed station-to-station calls. Operator assisted calls and calling card calls are not included in this plan.
5. For calls that are made to Call Forwarded lines, the customer pays the appropriate usage rate for the duration of the call from the originating number to the called number. The customer of the Call Forwarding service pays any applicable usage rate from the called number to the terminating location of the call.
6. Calls placed from an off-premises extension of an access line will be billed as if the local calls had been placed from the primary service location.
7. Missouri Call Plan provides residence and business customers with a choice of one of three block of times for a set rate. The rates as specified in Part D. following, will be assessed for a group of minutes or rounded to the next higher minute on all minutes above the block of time.
8. The chargeable time will be rate sensitive to each specific package. When the minutes exceed the block of time, a per minute rate will be assessed on each minute above the block of time.
9. Chargeable time is started when the called party answers or when the caller is connected to automatic answering services, (i.e., automatic answer/record equipment, voice mail, or an answering service).

LOCAL EXCHANGE SERVICE

TDS LOCAL ENHANCED(Continued)

B. Regulations (Continued)

10. Chargeable time ends when the calling station "hangs up", thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.
11. Chargeable time does not include time lost because of faults or defects in the service.
12. All charges assessed under this plan are in addition to Local Exchange line rates.
13. All per minute rates will be billed in arrears.
14. Time of day discounts are not applicable.
15. Customers will automatically receive message detailed billing.
16. Business customer designation includes individual, Multiline, Key, PBX, and CENTREX customers.

C. Exchange Listing

Calls originating in the New London exchanges and terminating in Hannibal will be included as part of this expanded calling plan.
