

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Application of Spire Missouri)
Inc. d/b/a Spire for a Permanent Waiver from the)
Requirement to use a “device” for Overpressure) File No. GE-2023-0112
Protection in 20 CSR 4240-40.030 (4)(12) and)
(13) for Certain Spire East Facilities)

QUARTERLY UPDATE

COMES NOW Spire Missouri Inc. (“Spire Missouri” or “Company”) and submits this Quarterly Update in accordance with the *Full and Unanimous Stipulation and Agreement* (“Stipulation”) filed in this docket, stating the following:

1. This Quarterly Update provides Spire Missouri’s progress on the installation of temporary stations at or abandonment of Reynolds regulator stations. The information provided is current as of the date of this filing.
2. Spire Missouri has completed Phase One of its initial Reynolds Replacement Schedule, which involved the installation of seven temporary stations.
3. As part of Phase Two, the Company is installing seven temporary stations and abandoning twelve Reynolds regulator stations. To date, the Company has completed the installation of all but one temporary station and abandoned nine of the Reynolds regulator stations. The final temporary station is planned to be replaced in May 2026, as the Company now has obtained all necessary equipment. The remaining three stations to be abandoned have been taken offline and, due to the installed temporary stations, system modeling has shown that the stations will not have to be brought back online. The three stations will be abandoned with the Company’s grid replacement program. **Exhibit A**, attached, updates the initial Reynolds Replacement Schedule and provides the anticipated timeframes for the abandonment of the stations, as well as

a list of all temporary stations that have been installed and regulator stations that have been abandoned.

WHEREFORE, Spire Missouri respectfully requests that the Commission accept this Quarterly Update.

Respectfully submitted,

/s/ J. Antonio Arias
