Subject: Re: Electronic Service Copy GC-2026-0250

Hello,

I will be looking for the accurate information to prove that on average the weather was closer to 70 degrees during the the months of November and December.

Also that the weather was higher in the month of January which was a lower bill since the information has seemed to be overlooked or hearsay.

Thank you!

Attached please find your electronic service copy of *Staff Recommendation*, filed by Staff today in the above referenced case. Thank you.

**Thanks,**
