### Exhibit No. 67

Ameren Missouri – Exhibit 67 Timothy L. Eggers Direct Testimony (Gas) File Nos. ER-2021-0240 & GR-2021-0241

067P Exhibit No.:

Issue(s): Missouri School Board

Association Pilot Program

Witness: Timothy L. Eggers Type of Exhibit: Direct Testimony Sponsoring Party: Union Electric Company
File No.: GR-2021-0241

Date Testimony Prepared: March 31, 2021

## MISSOURI PUBLIC SERVICE COMMISSION

FILE NO. GR-2021-0241

**DIRECT TESTIMONY** 

**OF** 

TIMOTHY L. EGGERS

ON

**BEHALF OF** 

UNION ELECTRIC COMPANY

d/b/a Ameren Missouri

St. Louis, Missouri March 2021

#### **TABLE OF CONTENTS**

I.	INTRODUCTION	1
II.	PURPOSE OF TESTIMONY	2

#### **DIRECT TESTIMONY**

**OF** 

#### TIMOTHY L. EGGERS

#### FILE NO. GR-2021-0241

1			I.	IN	FRODUCTIO	)N		
2	Q.	Please s	tate your	name a	and business a	address.		
3	A.	My nam	e is Timo	thy L.	Eggers and m	y business add	lress is	One Ameren
4	Plaza, 1901 C	Chouteau A	Avenue, St	. Louis	, Missouri 631	03.		
5	Q.	What is	your pos	ition w	ith Ameren M	Iissouri?		
6	A.	I am the	Manager	of Gas S	Supply for Uni	on Electric Co	mpany	d/b/a Ameren
7	Missouri ("A	meren Mis	ssouri" or	"the Co	ompany").			
8	Q.	Please	describe	your	educational	background	and	employment
9	experience.							
10	A.	I receive	ed a Bache	lor of S	sciences degree	e in Chemical l	Engine	ering from the
11	University of	Missouri -	– Columbi	a in 19	90. I worked fo	or Spire Misson	uri, for	merly Laclede
12	Gas Compan	y, from 1	991 to 20	01 in v	various Engin	eering roles, in	ncludir	ng natural gas
13	system design	n, system	maintenan	ce, and	l code complia	nce. I also ma	naged	new customer
14	connections,	and superv	vised cons	truction	n and maintena	ance teams. In	2001, 1	I was hired by
15	Ameren Miss	ouri as a l	District E	ngineer	in the Central	Ozarks Divisi	ion, an	d promoted to
16	Superintendent of Gas Operations and Engineering in 2003. While in the Central Ozarks							
17	Division, I m	anaged the	e Construc	ction, S	ervice, and En	gineering Dep	artmen	ts. I moved to
18	Gas Supply for	or Amerer	Services	in 2005	5 and was pror	noted to Mana	ger of	Gas Supply in
19	2008. In the s	summer of	2020, I m	noved to	o Ameren Mis	souri to manag	ge Gas	Supply within

### The Direct Testimony of Timothy L. Eggers

- 1 the Energy Management & Trading function. While in Gas Supply roles, I have managed
- 2 all facets of the Gas Supply function, including procuring gas supply and pipeline capacity
- 3 and storage. I have led short- and long-term supply planning, risk management efforts,
- 4 daily operations, and end user transport functions. I have also presented gas supply plans
- 5 in front of Illinois Commerce Commission ("ICC") Commissioners and Staff and the
- 6 Missouri Public Service Commission ("MPSC") Staff.

#### 7 Q. Have you testified before any Regulatory Bodies previously?

- 8 A. Yes. I have filed testimony in a Federal Energy Regulatory Commission
- 9 Section 4 pipeline rate case and been involved in numerous pre-filing settlements and rate
- 10 proceedings. I have also filed testimony in multiple Purchased Gas Adjustment dockets
- before the ICC and filed testimony in a General Service rate adjustment proceeding at the
- 12 ICC.

13

#### II. PURPOSE OF TESTIMONY

#### Q. What is the purpose of your testimony in this proceeding?

- 15 A. I will discuss the results from the Missouri School Board Association
- 16 ("MSBA") pilot program outlined in the MSBA stipulation put in place in our previous rate
- case settlement<sup>1</sup> and support a limited extension of the pilot program through May 1, 2022.
- 18 The MSBA stipulation provides for certain changes to Ameren Missouri's special school
- 19 aggregation transportation customer cash out provisions that are in force until the revised
- 20 rates in this docket are implemented.

<sup>&</sup>lt;sup>1</sup> File No. GR-2019-0077, *Nonunanimous Stipulation and Agreement as to MSBA Issues*, filed July 23, 2019.

#### 1 Q. Please explain the pilot program.

2 The pilot program was established under the MSBA stipulation in the A. 3 Company's last natural gas general rate case, File No. GR-2019-0077. It changed the 4 financial disposition, or cash out, of monthly imbalances that are greater than 5% of 5 monthly nominations for MSBA schools. It eliminated the Purchased Gas Adjustment 6 element of the Ameren Missouri transportation tariff cash out mechanism. The pilot 7 program requires Ameren Missouri to provide a wealth of data related to the imbalances 8 and usage of non-MSBA schools and MSBA schools in the pilot program, along with 9 forecast and actual load data for the Ameren Missouri system. Ameren Missouri also 10 calculated imbalance charges under the tariff mechanism and the mechanism outlined in 11 the stipulation.

#### Q. Can you summarize the results of the pilot program?

A. Yes. The pilot program has been in place for one complete winter (2019-2020, and is currently operating this winter (2020-2021). As shown in confidential Schedule TLE-D1, Ameren Missouri calculated the winter 2019-2020 cash out charges for imbalances exceeding the 5% threshold under the pilot and the previous cash out mechanism, and found that the pilot saved schools \*\*\_\_\_\_\_\* over the entire winter. This equates to about \*\*\_\_\_\_\*\* per school per month. Data for November 2020 through January 2021 indicate pilot schools have saved \*\*\_\_\_\_\_\*\* for that period as shown in confidential Schedule TLE-D2.

#### Q. What were the costs to implement and maintain the pilot program?

A. The cost to implement the pilot program exceeded \$29,000, largely due to the Company's time spent by the Digital Department to change the billing system and create

6 \_\_\_\_\*\*

7 \*\*\_\_\_\_\_

9 \_\_\_\_\*\* I recommend that the pilot program be extended for another winter.

#### Q. Why are you recommending that the pilot program be extended?

A. The stipulation provides for the pilot program to run through the effective date of rates in the Company's next natural gas general rate case. However, paragraph 4(e) of the stipulation contemplated a necessary contingency: "The Signatories recognize that extreme circumstances (e.g., major pipeline force majeure events, curtailments, or extreme weather events) could render the information gained by this pilot program insufficient upon which to recommend a permanent solution in the Company's next natural gas rate case." We currently have two winter seasons' worth of data to evaluate, that being the winters of 2019-2020 and the first three months of the 2020-2021 winter. The data for the second winter were most certainly impacted by extreme circumstances. First, I expect winter 2020-2021 to be atypical for school systems as the COVID-19 pandemic caused many schools to operate remotely, meaning there was likely significantly less heating required. As shown in Schedule TLE-D3, which is a map and summary of the patterns of instructions for local

<sup>&</sup>lt;sup>2</sup> File No. GR-2019-0077, *Nonunanimous Stipulation and Agreement as to MSBA Issues*, filed July 23, 2019, at paragraph 4.

1 education agencies ("LEAs"), <sup>3</sup> as of December 1, 2020, a majority of schools were offering

2 something other than only the traditional, in-person learning for all students. In addition,

3 the polar vortex extreme cold weather event in February of 2021 will impact the second

4 winter's results. The cost of natural gas jumped 100 times pre-storm levels during the cold

5 weather event and supplies to many parts of Missouri were very limited due to production

6 curtailments from well freeze-off and power failures impacting gas processing facilities.

7 MSBA pilot school gas suppliers may have had limited tools to appropriately manage gas

supplies during the cold weather event. These events made it inappropriate, in my opinion,

for a determination to be made on whether to make the pilot permanent.

For these reasons, Ameren Missouri recommends extending the pilot to include the next winter (2021-2022) and terminate on May 1, 2022. This extension will allow parties to gather another, hopefully more "normal", winter's data for a better evaluation of the pilot program's benefits, while limiting the extent of the ongoing costs for the pilot program. I recommend the Commission approve using a termination date, rather than just extension to a future rate case, in recognition of the fact that the timing of such cases is highly variable.

<sup>&</sup>lt;sup>3</sup> This map is provided on the Missouri Department of Elementary and Secondary Education's website at: <a href="https://dese.mo.gov/communications/coronavirus-covid-19-information">https://dese.mo.gov/communications/coronavirus-covid-19-information</a>. Schedule TLE-D3 shows 74 LEAs were providing "Distanced" instruction (defined as "All students are receiving instruction away from campus to support social distancing."); 76 LEAs were providing "Blend Onsite/Distanced" instruction (defined as "Some students are receiving instruction on campus while others are taking part in distanced learning. Grade levels may be receiving different patterns of instruction, or students may be splitting time between onsite and distanced learning."); 220 of the LEAs were providing "Onsite with Distanced Option" instruction (defined as "Students are receiving instruction on campus, while the school is also providing families an option for distanced instruction."); and 187 LEAs were providing "Onsite" instruction (defined as "All students receiving instruction on campus.").

The Direct Testimony of Timothy L. Eggers

#### 1 Q. What would happen after the pilot program terminates under the

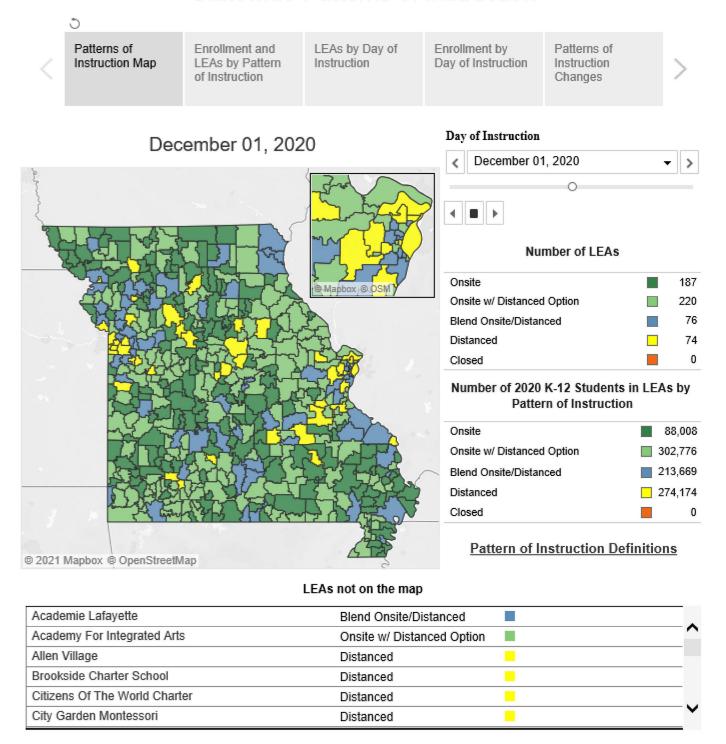

#### 2 Company's proposal?

- A. As it has done so far, Ameren Missouri will share the data from the pilot
- 4 with the Staff, the Office of the Public Counsel, and the Missouri School Board
- 5 Association. Each party will be allowed to address this matter and make its own
- 6 recommendation on the pilot program in the next general rate review. As Company witness
- 7 Michael Harding describes in his direct testimony, Ameren Missouri's gas tariff sheet
- 8 number 16 is being revised to indicate that the MSBA pilot program will terminate on May
- 9 1, 2022. Thereafter, MSBA schools will be added back to the "Experimental Tariff
- 10 Provisions Applicable to School Entities" on the Company's Transportation Service tariff.
- 11 Q. Does this conclude your direct testimony?
- 12 A. Yes, it does.

# Schedule TLE-D1 is CONFIDENTIAL in its entirety
