WNAR

6. The Company's WNAR Tariff requires the Company to make an annual rate filing to adjust its revenue to account for the effects of abnormal weather. The rate adjustment is effective for a period of 12 months.

7. The Revised Tariff Sheets, P.S.C. MO. No. 9, Second Revised Sheet Nos. 13.3 and 13.4, were filed by the Company on July 1, 2026, to become effective on September 1, 2026. The existing WNAR rates will be revised as of September 1, 2026, and this update to the WNAR will allow the rider to continue without interruption.

8. The new WNAR rate is \$0.04544 per Ccf of gas used for Spire East Residential customers and \$0.08246 per Ccf of gas used for Spire West Residential customers. For the average

Spire East residential customer, the decrease is \$0.37 per month, and for the average Spire West residential customer, the increase is \$2.85 per month. The WNAR was approved for the Small General Service (“SGS”) class in Case No. GR-2025-0107, with tariffs effective October 24, 2025. The new WNAR rate is \$0.01688 per Ccf of gas used for Spire East SGS customers and \$0.02795 per Ccf of gas used for Spire West SGS customers. For the average Spire East SGS customer, the charge will be \$3.26 per month and for the average Spire West SGS customer, the charge will be \$4.82 per month. The actual change to a customer’s bill will vary depending on the customer’s usage.

WHEREFORE, for all the foregoing reasons, Spire Missouri respectfully requests that the Commission approve this Application, order the proposed WNAR Tariff Sheet to become effective on September 1, 2026, and grant any other relief as is just and reasonable.

Respectfully submitted,

/s/ J. Antonio Arias
