RE: Case No. WC-2026-0371 - Objections to Data Requests 7 and 8

Dear Ms. Hensen,

On July 10, 2026, Missouri-American Water Company (MAWC or Company) received data requests (DRS) from you via the Missouri Public Service Commission's Electronic Filing System (EFIS) system related to the above-referenced case. The Company respectfully requests that its objection be considered notwithstanding its untimeliness. The Company understands that this objection is being submitted two days after the deadline prescribed by Commission Rule 20 CSR 4240-2.090(2). During the objection period, the Company and Mr. O'Leary engaged in good-faith discussions regarding the Complaint in an effort to resolve the dispute. When those efforts proved unsuccessful, the Company promptly asserted the objections below. Accordingly, the Company respectfully requests that Staff accept and consider the objections set forth below.

Additionally, the Company intends to file a Motion for Leave to Submit Its Objection Out of Time with the Commission.

MoPSC 0007:

Please provide MAWC's most recent required water audit.

Objection: MAWC objects to this data request for the following reasons: a) the responsive information is not relevant to the subject proceeding, not proportional to the needs of the case considering the totality of the circumstances, nor reasonably calculated to lead to the discovery of admissible evidence; and (b) overly broad and unduly burdensome.

MoPSC 0008:

Please provide all MAWC correspondences submitted to residential customers alerting the customer usage is out of the normal range from July 1, 2024, to July 1, 2026.

Objection: MAWC objects to this data request for the following reasons: a) the responsive information is not relevant to the subject proceeding, not proportional to the needs of the case considering the totality of the circumstances, nor reasonably calculated to lead to the discovery of admissible evidence; and (b) overly broad and unduly burdensome.

Sincerely,

MISSOURI-AMERICAN WATER
COMPANY
