STATUS REPORT¹

Respondent, by and through counsel, submit this further status report in compliance with the Commission's Order dated April 2, 2026.

Since the last update, the parties have cooperated, with Complainant providing an updated list of installation contractors. While response and interest from contractors remain limited, several contractors have viewed the property and provided informal bids. Specifically, two contractors have submitted bids and two others are pending.

Progress is being made, and avenues for resolution have not yet been completely exhausted.

This report is one day late due to the Complainant's counsel being unavailable to confirm a report by yesterday and also due to anticipated further information concerning the above-referenced bids, which came in just today.

Respondent proposes to keep submitting updates every two weeks, with the next report on August 20, 2026.

¹ The parties normally submit "joint" status reports. Respondent's counsel attempted to confer with Complainant's counsel on August 6 and 7, but counsel was unavailable for response.

No further Commission action is requested at this time.

Respectfully submitted,

/s/ Matthew D. Turner
