**ORDER ESTABLISHING TIME TO RESPOND
TO MOTION FOR ADMISSION OF EXHIBIT 65HC**

Issue Date: March 18, 2015

Effective Date: March 18, 2015

On March 18, 2015, Union Electric Company, d/b/a Ameren Missouri, filed a motion seeking admission of exhibit 65HC, which it previously offered into the record at the evidentiary hearing. At the hearing, the Sierra Club objected that the offered exhibit addressed matters that went beyond the scope of proper redirect testimony in that no one asked the witness about those matters in cross-examination, or in questions from the Commission. Sierra Club made the same objection to certain testimony given by Ameren Missouri's witness during the redirect portion of his testimony at the hearing. The presiding officer deferred ruling on the objections until he had an opportunity to review the transcript to determine whether the matter had been raised in cross-examination or in questions from the Commissioners. Ameren Missouri's March 18 motion contends the transcript, which is now available, demonstrates that Sierra Club did raise the matter during the course of its cross-examination of the witness.

The Commission intends to rule on the objections before initial briefs are due so that the briefing parties can know whether the contested exhibit and testimony will be part of the record. Therefore, the Commission will establish a deadline for the filing of responses to Ameren Missouri's motion.

THE COMMISSION ORDERS THAT:

1. Any response to Ameren Missouri's Motion for Admission of Exhibit 65HC shall be filed no later than March 24, 2015.
2. This order shall be effective when issued.
