Missouri Public  
Service Commission

Question:8032

Reference rebuttal testimony of Mr. Rush page 27: Please provide the basis for Mr. Rush's claim the Commission has "consistently rejected" that including costs in the FAC removes the incentive to take action to decrease non-fuel and non-purchased power costs. Please include any report and orders in which the Commission rejected this claim.

Response:

Commission approval of FAC's, which includes many costs that Ms. Mantle recommends should be removed, is evidence that the Commission rejects the claim that inclusion of these items removes the incentive to decrease non-fuel and non-purchased power costs.
