RE: Relinquishment of Eligible Telecommunications Carrier (ETC) Designation – TurboNet

Dear Secretary Dippel:

TurboNet hereby notifies the Missouri Public Service Commission of its intent to relinquish its Eligible Telecommunication Carrier (ETC) designation in the state of Missouri, effective August 25, 2026.

TurboNet obtained its ETC designation in Missouri solely for the purpose of participating in the Federal Communications Commission's Rural Digital Opportunity Fund (RDOF) program. TurboNet was successful in being awarded funding through the RDOF program, however TurboNet has since been acquired by United Fiber. During this acquisition, United Fiber also acquired the RDOF support. United Fiber continues to maintain its ETC designation. TurboNet confirms that it does not and has never had any Lifeline customers in Missouri and therefore no existing customers will be impacted by this relinquishment. TurboNet continues to provide IVoIP services and intends to maintain its registration. Please let us know if any additional information or action is required to complete this relinquishment.

Thank you for your assistance and cooperation in this matter.

Should you have any questions, please contact me directly at mwebb@ueci.coop, 816-998-8132
