

Before the Public Service Commission
Of the State of Missouri

In the Matter of the Evergy Metro Inc. d/b/a
Evergy Missouri Metro and Evergy Missouri West,
Inc. d/b/a Evergy Missouri West for Permission and
Approval of Certificates of Convenience and Necessity
Authorizing them to Construct, Install, Own, Operate,
Manage, Maintain, and Control a Natural Gas Production
Facility and a Battery Energy Storage System

Case No. EA-2026-0343

Motion to Intervene of Rhanda Shreve

1. Comes now Rhanda Shreve, appearing pro se, and pursuant to 20 CSR 42-2.075 respectfully moves the Missouri Public Service Commission (Commission) for an order granting him intervention in Case No. EA-2026-0343.
2. Shreve is a person and resident and property owner in Buchanan County, Missouri. Her street and mailing address is [REDACTED]. Her email address is [REDACTED] and phone number is [REDACTED].
3. Shreve personally owns a residence at this location. This location is 2400 feet to the proposed site for a 710-megawatt combined-cycle natural gas fired electric generating plant in [REDACTED] Missouri.
4. Shreve is directly affected by the site location. Because of the close proximity, Shreve has direct and substantial interest in the Commission's decision that is different from the interest of the general public.
5. Shreve is concerned that the construction and operation of the [REDACTED] [REDACTED] may adversely affect her residence, property, and use and enjoyment of her property. Main concerns are potential effects of noise, construction and operational traffic, water resources, property value, the rural character of the surrounding area, and the agricultural use of the farm land.
6. Shreve is concerned about the public health impacts on his family and surrounding community. Her life is built around this location. Her daughter participates in Future Farmers of America (FFA). She uses this location to produce and sell produce as a project. The traffic and construction could adversely affect her ability to continue this learning project.
7. Shreve would like to see evidence and any information of the defined maximum permitted NOx emissions from Unit 1 and 2 tons per year and pounds per hour. Also an ozone model of the plume radius.

8. Shreve seeks intervention so that he may receive case information, participate in proceedings, present relevant information concerning potential localized impacts, and protect his individual interest in the case process.
9. Shreve presently **Opposes the authorized construction and operation of the Buchanan County Bluffs Energy Center Unit 2.**

Wherefore, Rhanda Shreve requests that the Commission grant this Motion to Intervene, make her a party to Case No. EA-2026-0343.

Thank you,
Rhanda Shreve
