

in DR programs; (3) certain modifications to the Chapters 3 and 20 Cogeneration and Net-Metering rules; and (4) the Commission consider certain rate structures and rate designs to enhance customer responsiveness to DER opportunities by providing appropriate price signals to consumers and revenue recovery for utilities.

The Commission accepts the recommendations offered by Staff and determines that they promote good public policy, and that it would be advisable to further consider the specific merits of each in the appropriate case where the impacted parties will have an opportunity to be heard. Accordingly, the Commission intends to issue a subsequent order in this docket concerning the resource planning rulemaking recommendations to allow for additional input prior to establishing rulemaking dockets. The modifications to Chapter 3 and Chapter 20 will continue to be addressed in File No. EW-2018-0078. Concerning the DR aggregation and rate design recommendations, the Commission intends to issue orders seeking additional information from interested parties in pending and future rate cases, and in cases filed under the Missouri Energy Efficiency Investment Act.

THE COMMISSION ORDERS THAT:

1. The Commission accepts the recommendations offered by Staff in its April 5, 2018 Report on Distributed Energy Resources.

2. This order shall be effective when issued.

BY THE COMMISSION
