STAFF'S TARIFF RECOMMENDATION

COMES NOW the Staff of the Missouri Public Service Commission (“Staff”), by and through counsel, and for its *Tariff Recommendation* states as follows:

1. On September 24, 2026, Union Electric Company, d/b/a Ameren Missouri (“Ameren”) filed tariff sheets for its Economic Development Incentive (EDI) Rider. The tariff sheets bear an effective date of October 24, 2026, and was assigned Tracking No. JG-2027-0040.
2. On September 25, 2026, the Commission issued an order directing Staff to file a recommendation regarding the tariff sheets no later than October 8, 2026.
3. Accompanying this pleading, and incorporated herein by reference, is Staff’s Memorandum recommending Commission approval of the tariff sheets, originally filed in its September 24, 2026, tariff sheet, to go into effect for service on and after October 24, 2026.
4. The Ameren Missouri tariff revision authorizes the application of a twenty-five percent discount (“Rider EDI Discount”) during all contract years, except in cases where applying the full discount would result in rates that do not exceed variable cost. If the Rider EDI Discount would cause rates to fall below variable cost, the discount shall instead be adjusted so that the percentage discount, rounded to the nearest one percent, is expected, as of the date of the discount percentage is determined, to generate revenues greater than or equal to one hundred percent of Ameren Missouri’s variable cost.¹

Due to the expedited nature of the review, Staff's recommendation is based on a limited review of the application and supporting materials.

6. Staff recommends approval of the filed tariff sheets in Tracking No. JG-2027-0040, as follows:

SUBJECT: Staff Recommendation for the **Approval** of the Revised Tariff Sheet Filed by Union Electric Company, d/b/a Ameren Missouri's Economic Development Incentive Rider to go into effect October 24, 2026.

DATE: October 7, 2026

On September 24, 2026, Union Electric Company, d/b/a Ameren Missouri ("Ameren") filed tariff sheets for its Economic Development Incentive ("EDI") Rider. On September 25, 2026, the Commission direct Staff to file a recommendation regarding the EDI Rider in Tariff Tracking No. JG-2027-0040 no later than October 8, 2026. The EDI Rider is applicable to a new customer where the Qualifying Usage is reasonably projected to be at least 270,000 CCF¹ annually.² Additionally, the EDI Rider is applicable to an existing customer where the Qualifying Usage is reasonably projected to be at least 135,000 CCF annually.³ After its review, Staff recommends approval of the tariff sheet in Tracking No. JG-2027-0040.

Ameren's tariff, currently, does not have an effective EDI Rider. The purpose of the EDI Rider is to allow Ameren to comply with Section 393.1645, RSMo, by allowing Ameren the authority to provide a twenty-five percent discount ("Rider EDI Discount") during all contract years except where such discount would result in rates that do not exceed variable cost. If the Rider EDI Discount does result in rates that do not exceed variable cost, then the discount shall be determined so that the percentage discount, rounded to the nearest

one percent, is expected, as of the date of the discount percentage is determined, to provide revenues greater than or equal to one hundred percent of Ameren's variable cost.⁴
