ORDER OF RULEMAKING

By the authority vested in the Public Service Commission under section 386.410, RSMo 2016, the commission amends a rule as follows:

220 CSR 4240-4.017 General Provisions is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on July 15, 2026 (51 MoReg 887-888). No changes have been made to the text of the proposed rule, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The public comment period ended August 14, 2026, and the commission held a public hearing on the proposed amendment on August 20, 2026. The commission received three (3) written comments generally in support of the amendment but with requests for clarification and five (5) verbal comments at the hearing generally in support of the amendment with requests for clarification.

COMMENT #1: J. Scott Stacey on behalf of the staff of the commission filed written comments and commented at the hearing in support of the proposed amendment. Staff noted the proposed amendments were to update rules and statutory citations identified as needing correction during the commission's periodic rule review, and that some additions were also made to clarify or update requirements. Staff also noted that it was in support of the commission's written response issued prior to the hearing.

RESPONSE: The commission thanks its staff for its comments. No changes were made as a result of this comment.

COMMENT #2: Roger W. Steiner on behalf of Evergy Metro, Inc. d/b/a Evergy Missouri Metro and Evergy Missouri West, Inc. d/b/a Evergy Missouri West (collectively, "Evergy") filed written comments and Jim Fischer on behalf of Evergy commented at the hearing. Evergy suggested that the commission consider

changing the look-back period for communications in 20 CSR 4240-4.017(1) even though that section is not currently being amended. Evergy proposes the commission consider shortening the time that communications of substantive issues must be reported. Evergy stated a shorter time period would be more in-line with the requirements of neighboring states, including Nebraska, Iowa, Arkansas, and Kansas, for which the reporting requirements are not as long or as strict as in Missouri.

RESPONSE: The commission thanks Evergy for its comments. However, since these proposed substantive changes to this section were not published for comment, the commission makes no changes as a result of these comments.

COMMENT #3: Rachel L. Niemeier on behalf of Missouri-American Water Company (MAWC) filed a written comment and Dean Cooper on behalf of MAWC commented at the hearing indicating general support of the proposed amendment. MAWC also stated it appreciated Evergy's comment regarding the look-back period and would participate in any future rulemaking to address that section.

RESPONSE: The commission thanks MAWC for its participation in the rulemaking process. No changes were made as a result of this comment.

COMMENT #4: Lindsay VanGerpen on behalf of the Office of Public Counsel (OPC) commented at the hearing that OPC had reviewed the written comments and the commission's written response to those comments and had nothing further to add.

RESPONSE: The commission thanks OPC for its participation in the rulemaking process. No changes were made as a result of this comment.

COMMENT #5: Scott Weitzel on behalf of Spire Missouri Inc. commented at the hearing that it agreed with Evergy's comments regarding the need to review 20 CSR 4240-4.017(1). Spire stated that with current market dynamics, technology changes, and customer expectations, this rule should be further reviewed.

RESPONSE: The commission thanks Spire for its participation in the rulemaking process. No changes were made as a result of this comment.
