NOTICE OF REJECTED FILINGS

Issue Date: October 22, 2026 Effective Date: October 22, 2026

On October 19, 2026, Brett Felber (Complainant) filed a complaint (Complaint) with the Commission against Spire Missouri Inc. d/b/a Spire. On October 21 and October 22, 2026, Brett Felber (Complainant) submitted three filings. This Notice explains why all three were rejected.

Commission Rule 20 CSR 4240-2.080(4) requires each pleading to include a clear and concise statement of the relief requested, a specific reference to the statutory provision or other authority under which requested, and a concise statement of the facts entitling the party to relief. Commission Rule 20 CSR 4240-2.080(12) states that filings which are not in substantial compliance with the rule may not be accepted for filing.

Additionally, the Commission cannot consider evidence that Complainant submits which has not been properly admitted during an evidentiary hearing. An evidentiary hearing has not yet been scheduled.

Submission #1 – Call Recording 13

The first submission of Complainant purports to be a recording a phone call between himself and Spire customer service. This is clearly intended to be introduced as evidence as discussed above and is not ripe to be introduced as an exhibit until an evidentiary hearing.

Submission #2 – Memorandum Regarding Restoration of Service and Two Active Accounts on a Single Meter

The second submission of Complainant states that its purpose is to clarify the central issues in the case and the relief sought. The document restates Complainant's request for restoration of gas service – which repeats the arguments set forth in Complainant's already-filed motion for restoration of gas service.[1] This is better described as argument in favor of his position or evidence as discussed above and is not ripe to be introduced until filed as an appropriate pleading, or until such time as it can be introduced as evidence at an evidentiary hearing or submitted as argument in briefing.

Submission #3 - Exhibit of Complainant

The third submission of Complainant states that its purpose is to show proof supporting the allegations contained in the Complaint to the Commission and counsel for

[1] The motion for restoration of gas service, filed on October 20, 2026, is still pending as Spire was ordered to file its response to the motion no later than October 23, 2026. See *Order Directing Response*, issued October 20, 2026.

Spire. This is clearly intended to be offered as evidence as discussed above and is not ripe to be introduced until an evidentiary hearing.
