BEFORE THE PUBLIC SERVICE COMMISSION OF THE STATE OF MISSOURI

In the Matter of the Application of Union Electric Company d/b/a Ameren Missouri's Energy Efficiency Investment Charge Rider.

File No. ER-2015-0132 Tariff No. YE-2015-0210

STAFF'S AMENDED RECOMMENDATION

)

COMES NOW the Staff of the Missouri Public Service Commission, by and through counsel, and for its amended recommendation on the application that initiated the above case, states:

Background

1. On November 21, 2014, Union Electric Company d/b/a Ameren Missouri ("Ameren Missouri") filed an application to adjust its Energy Efficiency Investment Charge Rider, including a proposed tariff revision to become effective January 27, 2015.

2. On November 24, 2014, the Commission ordered the Staff of the Commission to file its recommendation no later than December 21, 2014.

3. On December 19, 2014, Staff filed its Recommendation, recommending that the Commission approve the proposed tariff sheet submitted by Ameren Missouri.

4. Following that filing, Staff was made aware of a clerical error. More specifically, both Staff's recommendation and the cover pleading refer to a "Nonunanimous" Stipulation and Agreement approved by the Commission in File No. EO-2012-0142.¹ Staff would like to amend its filing to reflect the fact that the Stipulation and Agreement approved by the Commission in File No.

¹ See paragraph (1) of the cover pleading and page 2 of 4 of Staff's Recommendation, fourth full paragraph.

Staff now submits its amended Memorandum, attached hereto as Appendix A, for the Commission's consideration.

WHEREFORE, Staff hereby submits its amended recommendation for approval of the application and proposed tariff sheet submitted by Ameren Missouri to adjust its Energy Efficiency Investment Charge Rider for the Commission's consideration.

Respectfully submitted,

/s/ Whitney Hampton

Whitney Hampton #64886 Associate Staff Counsel

Attorney for the Staff of the Missouri Public Service Commission 200 Madison Street P. O. Box 360 Jefferson City, MO 65102 (573) 751-6651 (Telephone) (573) 751-9265 (Fax) Whitney.Hampton@psc.mo.gov

CERTIFICATE OF SERVICE

I certify that a true and accurate copy of the foregoing was mailed, electronically mailed, or hand-delivered to all counsel of record on this 8th day of January, 2015.

<u>/s/ Whitney Hampton</u>

<u>MEMORANDUM</u>

- TO: Missouri Public Service Commission Official Case File File No. ER-2015-0132 and Tariff Tracking No. YE-2015-0210 Union Electric Company d/b/a Ameren Missouri
- FROM: Bradley Fortson, Regulatory Economist II

/s/ Michael Scheperle	01/08/15	/s/ Whitney Hampton	1/08/15
Manager, Economic Analysis / Date		Staff Counsel Division / Date	

- SUBJECT: Staff Recommendation to Approve Union Electric Company d/b/a Ameren Missouri's ("Ameren Missouri") Proposed Tariff Sheet for its Rider Energy Efficiency Investment Charge ("Rider EEIC") to Implement the Terms, Conditions, and Rates of the Proposed Rider EEIC effective January 27, 2015
- DATE: January 8, 2015

Ameren Missouri Filing

On November 21, 2014, Ameren Missouri filed with the Commission one (1) tariff sheet bearing an issue date of November 21, 2014, and an effective date of January 27, 2015,¹ proposing a Missouri Energy Efficiency Investment Act ("MEEIA") Rider EEIC² rate change. The overall Rider EEIC rate change increases rates by approximately \$45.4 million³, or 1.60%. Ameren Missouri's filing included the proposed tariff sheet and work papers consisting of electronic worksheets showing its calculation of projected costs for the February 2015 billing month through January 2016 billing month. The proposed Rider EEIC includes projected Program Costs ("PC"), projected Ameren Missouri's Throughput Disincentive – Net Shared Benefits ("TD-NSB") share, Performance Incentive Award ("PIA") for each effective period, and any other Ordered Adjustments ("OA") along with reconciliations with interest by true-up and/or prudence reviews.

The Commission ordered the Staff of the Commission to file its recommendation no later than December 21, 2014.⁴

Recovery of costs and incentives will continue after the anticipated December 31, 2015 timeframe⁵ so that all costs and incentives are properly reconciled and recovered. The customer charge for the Rider EEIC is reflected in one line item labeled "Energy Efficiency Invest. Chg." on customers' bills. Ameren Missouri's filing proposes rate changes to the existing energy efficiency investment cost recovery mechanism. This is accomplished by calculating new Rider EEIC rate changes for each

¹ The first day of Ameren Missouri's February 2015 billing month.

² Designated File No. ER-2015-0132.

³ Specifically, the Net Program Costs ("NPC") are increasing by \$25,718,115 and the Net Throughput Disincentive ("NTD") is increasing by \$19,655,709.

⁴ Order Directing Notice and Establishing Intervention Date issued on November 24, 2014 in File No. ER-2015-0132.

⁵ The MEEIA program period is January 2, 2013 through December 31, 2015.

MO PSC Case No. ER-2015-0132 OFFICIAL CASE FILE MEMORANDUM PAGE 2 OF 4

applicable service classification⁶ effective January 27, 2015.

The proposed Rider EEIC rate changes are applicable to all kilowatt-hours ("kWh") of energy supplied to customers served by Ameren Missouri under service classification rate schedules⁷ 1(M), 2(M), 3(M), 4(M), 11(M) and 12(M), excluding kWh of energy supplied to "opt-out" customers.

Ameren Missouri makes a Rider EEIC filing each calendar year to become effective starting in the subsequent calendar year's February billing month. Ameren Missouri is allowed or may be ordered by the Commission to make one other Rider EEIC filing in each calendar year with filings being made at least sixty (60) days prior to their effective dates for either the June or October billing months.

Background

On January 20, 2012, Ameren Missouri filed an application for approval – under the MEEIA statute and the Commission's MEEIA Rules – of its 2013-2015 Energy Efficiency Plan ("MEEIA Report"), its Technical Resource Manual ("TRM"), and its request for variances from specific MEEIA rules.

On August 1, 2012, the Commission approved a Unanimous Stipulation and Agreement ("Stipulation") in File No. EO-2012-0142. The Stipulation was later amended by order effective December 29, 2012.

The Stipulation outlines the terms, conditions, and rates by customer class for 1) estimated and actual MEEIA Programs' costs; 2) estimated and actual TD-NSB Share amounts; and 3) Performance Incentive Award for January 2, 2013 through December 31, 2015. The Stipulation allows Ameren Missouri cost recovery through base rates and a tracker. The Stipulation allows for True-up, Prudence Reviews, and Variances from certain Commission Rules. The Stipulation requires Ameren Missouri to include a separate line item on customer bills entitled "Energy Efficiency Invest. Chg."

However, the Stipulation provides that if lawfulness of a DSIM rider is ultimately resolved in favor of it being lawful prior to any final true-up of the MEEIA Programs' costs or Ameren Missouri's TD-NSB Share, then the respective associated regulatory asset or regulatory liability balance and Performance Incentive Award shall (except as otherwise provided for in paragraph 7) be recovered from/returned to customers via such a rider.⁸ The Missouri Western District Court of Appeals held in Case No. WD 74676 that a rider mechanism is lawful. Hence, Ameren Missouri filed its proposed Rider EEIC to incorporate a rider mechanism for its costs and incentives in Case No. EO-2014-0075. The Commission approved the rider mechanism and requested variances for Ameren Missouri on January 3, 2014 effective January 27, 2014.

On July 28, 2014, the Commission Staff filed a notice indicating that it had started its prudence audit of the costs subject to Ameren Missouri's demand-side programs investment mechanism ("DSIM"). The Commission assigned it File No. EO-2015-0029. Commission Rule 4 CSR 240-20.093(10) requires that prudence reviews shall be conducted no less frequently than at twenty-four month

⁶ MO.P.S.C. Schedule MO. No. 6, Sheet No. 90.5

⁷ Rate Schedules for Residential 1(M), Small General Service 2(M), Large General Service 3(M), Small Primary Service 4(M), Large Primary Service (11(M), and Large Transmission Service 12(M).

intervals. A Commission Order⁹ states that, because the rule requires Staff to file its recommendation regarding the audit no later than 150 days after it initiates the audit, Staff's audit will be due no later than Friday December 26, 2014.

Change in 2015 MEEIA Rates

The current MEEIA mechanism rate per class of customer is collected through a line item on current bills and is based on <u>each year's</u> projected costs and incentives¹⁰ with reconciliations from actual prior periods and any ordered adjustments with interest. Listed below are the current MEEIA rates¹¹ and the new MEEIA rates¹² for the proposed Rider EEIC mechanism. The average residential bill¹³ will increase two dollars and thirty-one cents (\$ 2.31) per month or approximately 2.18%. Rider EEIC business¹⁴ rates per class vary due to projected costs, incentives, and customer opt outs¹⁵ per class of customer.

	Current MEEIA	Proposed MEEIA
Rate Class	Rate/kWh	Rate/kWh
Residential	\$0.003472	\$0.005607
Small General Service	\$0.001955	\$0.002435
Large General Service	\$0.002372	\$0.003563
Small Primary Service	\$0.002023	\$0.002865
Large Primary Service	\$0.001695	\$0.003385

Staff Recommendation

The Commission Staff's Economic Analysis Department ("Staff") has reviewed the filed tariff sheet and recommends the Commission issue an order approving the following tariff sheet, as filed on November 21, 2014, for service on and after January 27, 2015.

P.S.C. MO. No. 6

1st Revised Sheet No. 90.5, Cancelling Original Sheet No. 90.5

The Staff has verified that Ameren Missouri is not delinquent on any assessment and has filed its Annual Report. Ameren Missouri is current on its submission of its Quarterly Surveillance Monitoring reports as required in 4 CSR 240-20.090(10). The Staff is not aware of any other matter before the Commission that affects or is affected by this filing except for the ongoing prudence

⁹ Order Directing Notice, Establishing and Intervention Deadline, and Setting a Deadline for Requesting a Hearing issued July 30, 2014 in File No. EO-2015-0029.

¹⁰ Proposed Rider EEIC which contemplates projected costs and incentives with reconciliations from prior periods.

¹¹ MEEIA rates effective January 27, 2014 through January 26, 2015.

¹² Proposed MEEIA rates effective January 27, 2015. Rider EEIC rates would vary for each effective period based on projected costs, incentives, and customer opt-outs.

¹³ Based on a residential customer averaging 1,080 kWh per month of usage.

¹⁴ Business Rider EEIC rates are small general service, large general service, small primary service, and large primary service.

¹⁵ Ameren Missouri has an additional three business accounts that have opted out of MEEIA programs for 2015.

MO PSC Case No. ER-2015-0132 OFFICIAL CASE FILE MEMORANDUM PAGE 4 OF 4

review in File No. EO-2015-0029. Staff's audit in File No. EO-2015-0029 is due no later than Friday, December 26, 2014. Additionally, in Ameren Missouri's current rate case, File No. ER-2014-0258, Ameren Missouri has proposed to exempt residential low-income customers from paying the Rider EEIC charges. If the residential low-income exemption is authorized by the Commission, the charges to the residential Rider EEIC rate will become effective June 1, 2015. Hence, Ameren Missouri is planning another Rider EEIC filing to become effective June 1, 2015, which will allow an updated Rider EEIC rate. Staff's recommendation for approval of the EEIC rate change in this case is based solely on the accuracy of Ameren Missouri's calculations and is not indicative of the prudence audit currently being conducted in File No. EO-2015-0029 or implementing a residential low-income exemption proposed by Ameren Missouri in File No. ER-2014-0258.
