See attached filing ahead of your response. Also , under Commission tariffs you can't condition restoration on an imposed dispute or disputed amount. Two audio calls confirm that Spire is aware and an active dispute is still active on this.

Service needs to be restored today. Quit trying to condition it on a disputed amount and the numerous violations . Let me know what time. Also no money has been returned so you need to restore for that account too.

Enjoy the audio call.

Good evening Judge Hatcher,

I would only consider providing these audio files to Mr. Arias or Spire prior to formal data requests if Spire immediately restores gas service without requiring any payments, deposits, or reconnection fees. The audio contains evidence that conclusively resolves an active dispute—a fact of which Spire is fully aware. Furthermore, the recordings demonstrate that counsel is impermissibly conditioning the reconnection of gas service on the resolution of that dispute.

Otherwise, I intend to proceed in accordance with 20 CSR 4240-2.080(12). As these recordings are not currently part of the docket, Spire's counsel may request them through standard data requests, at which point I will provide them.

Additionally, Spire's counsel was already served a copy on October 21, 2026, at 8:57 AM.

Attached is a copy of the referenced email along with the attachments below.

Good Afternoon Judge Hatcher,

Spire is in receipt of the "Notice of Rejected Filings." Spire did not see these filings on the docket. Would it be possible for Spire to be provided these filings from the Commission, despite them being rejected?

Thank you,
Antonio Arias
