BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI

In the Matter of the Application of Union Electric Company d/b/a Ameren Missouri Company for a Certificate of Convenience and Necessity to Construct, Own, Operate and Maintain Upgrades to the Transmission System in Montgomery and Callaway Counties, Missouri.	)))))))	File No. EA-2026-0058

MOTION TO ACCEPT AMENDED APPLICATION

COMES NOW Union Electric Company d/b/a Ameren Missouri ("Ameren Missouri" or the "Company") and hereby files its *Motion to Accept Amended Application*. In support of said Motion, Ameren states:

1. On November 10, 2025, Ameren Missouri filed an Application pursuant to Section 393.170.1, RSMo, 20 CSR 4240-2.060, and 20 CSR 4240-20.045, with the Missouri Public Service Commission ("Commission") for a certificate of convenience and necessity ("CCN") authorizing it to construct, install, own, operate, control, manage, and maintain approximately 28 miles of new 345 kV transmission line and associated necessary facilities to connect the Burns substation in Callaway County to the Montgomery substation in Montgomery County (the "Montgomery-Callaway Connector Project" or the "Project").

2. 20 CSR 4240-20.045(6)(B) requires Ameren Missouri to provide a list of all electric, gas, and telephone conduit, wires, cables, and lines of regulated and nonregulated utilities, railroad tracks, and each underground facility, as defined in Section 319.015, RSMo, that the proposed construction will cross.

3. The Application indicated that facilities falling within the scope of 20 CSR 4240-20.045(6)(B) that would be crossed by the Project were identified in Schedule JD-01 to the

testimony of Mr. Dunham and Schedule SFG-03 to the testimony of Mr. Gardner, both of which were incorporated by reference into the Application.

4. Ameren Missouri has amended the Application to include a complete list of utilities and railroad tracks to be crossed by the Project, identifying the crossing locations by latitude and longitude coordinates.

5. The Amended Application supplements the information previously provided and is intended to ensure that the Application contains the information required by 20 CSR 4240-20.045(6)(B).

6. The amendment is limited to providing additional information regarding the facilities to be crossed by the Project and does not otherwise modify the relief requested in the original Application. Accordingly, Ameren Missouri respectfully requests that the Commission accept the Amended Application for filing and consider it as part of the record in this proceeding.

WHEREFORE, Ameren Missouri respectfully requests that the Commission issue an order accepting its Amended Application and granting such other and further relief as the Commission deems just and reasonable.

Respectfully submitted,
