OF

SARAH L.K. LANGE

EVERGY METRO, INC.,
d/b/a EVERGY MISSOURI METRO

CASE NO. EA-2026-0154

Jefferson City, Missouri
September 2026

** Denotes Confidential Information **

REBUTTAL TESTIMONY

OF

SARAH L.K. LANGE

EVERGY METRO, INC. d/b/a EVERGY MISSOURI METRO

CASE NO. EA-2026-0154

Q. Please state your name and business address.

A. My name is Sarah L.K. Lange, I am an economist for the Commission Staff in the Tariff and Rate Design Department. My business address is Missouri Public Service Commission, P.O. Box 360, Jefferson City, Missouri 65102.

Q. Have you previously participated in matters before this Commission?

A. Yes. A copy of my case experience and credentials is attached as schedule SLKL-r1.

Q. What is the purpose of your testimony?

A. I will respond to information provided in the September 1, 2026, response of Evergy Missouri Metro ("EMM") to Staff Data Request ("DR") 7 in this case, which provides EMM's quantification of the projected cost of service of Mullin Creek 2.

RELATIVE COSTS OF CAPACITY AND LLPS RATE DESIGN IMPLICATIONS

Q. Have you reviewed the information provided by EMM in its response to Staff DR 7, which provided projected cost of service scenarios for Mullin Creek 2, and the current tariffed rates?

A. Yes.

Q. Can you describe your review?

A. Yes. I reviewed the relationship, on an annual per kW basis, of the cost of owning (but not operating) EMM's current generation fleet and EMM's projections of owning (but not operating) Mullin Creek 2. I reviewed the relationship of these costs of service to the revenue that would be produced from the demand rates of a Large Load Power Service ("LLPS") customer at transmission voltage, assuming consistent monthly demand. I also considered the portion of LLPS demand rates that is required to offset demand-based transmission expense caused by that same level of demand as a direct reduction to LLPS demand revenue. The Mullin Creek 2 values presented are the average of the first four years of operation under the accounting treatment scenarios provided by EMM in response to Staff DR 7 in EA-2026-0154.[1]

The results of this review are presented below:

[1] The accredited capacity used for the Mullin Creek 2 calculation in this illustration is the value EMM relies upon in IRP related filings, which is ** [redacted] ** MW.

** [redacted] **

** [redacted] **

Q. What Information did you rely on for this review?

A. The information relied upon for this review includes the cost of service calculated by Staff for each generation type for its direct testimony in ER-2026-0143,[2] which is summarized below:

**
[redacted]
**

I also relied on the summer 2026 SPP Planning Reserve Margin ("PRM") requirement of 16%.[3] EMM's 2026 update to its Integrated Resource Plan, EO-2026-0188, uses a reserve margin of 7.059% for application to summer peak load, which Staff relied on to calculate the demand-based revenues on a PRM-adjusted $/kW-Year basis.

Transmission services for load require an additive cost per kW of approximately $3.4058 per kW-Month.[4] This equates to around $40 per kW-Year if demand is consistent in each month. Adjusting for expected incremental transmission expenses reduces the LLPS demand-based revenue under current rates to around $206 per kW-Year.

Q. What conclusion do you draw from your review?

A. This analysis indicates that the current LLPS demand-based rates provide revenues that provide essentially a one-for-one allocation of the current cost of owning EMM's generation fleet on a $/kW year basis, assuming that an LLPS customer has consistent demand in every month. The LLPS demand-based rate is not expected to

[2] The cost of service values do not include fuel other than contract renewable expense for a wind PPA that provides both capacity and energy, and is priced on a per MWh basis.
[3] SPP Quarterly Update to the Commission provided May 28, 2026
[4] Direct testimony of J Luebbert in ER-2026-0143.

cover the additional fixed cost of service that will be caused by the addition of Mullin Creek 2.

The environment for LLPS customers is competitive among utilities, and the addition of LLPS customers causes increases in fixed costs. Staff apprises the Commission of the relationship of current capacity cost of service and LLPS rates and the scale of the per-kW cost of service expected for Mullin Creek 2. In rate cases in which Mullin Creek 2 is recovered in rates, it will be appropriate to recognize the cost causation of Mullin Creek 2 for enabling service to LLPS customers.

CONCLUSION

Q. Does this conclude your rebuttal testimony?

A. Yes it does.

BEFORE THE PUBLIC SERVICE COMMISSION

OF THE STATE OF MISSOURI

In the Matter of Application of Evergy Metro, Inc. d/b/a Evergy Missouri Metro for Permission and Approval of a Certificate of Convenience and Necessity Authorizing it to Construct, Install, Own, Operate, Manage, Maintain, and Control a Natural Gas Electrical Production Facility	)	Case No. EA-2026-0154

AFFIDAVIT OF SARAH L.K. LANGE

STATE OF MISSOURI)
) ss.

JURAT

Subscribed and sworn before me, a duly constituted and authorized Notary Public, in and for the County of Cole, State of Missouri, at my office in Jefferson City, on this 10th day of September 2026.

Dianna L. Vaught
Notary Public

DIANNA L. VAUGHT
Notary Public - Notary Seal
State of Missouri
Commissioned for Cole County
My Commission Expires: July 18, 2027
Commission Number: 15207377

Sarah L.K. Lange

I received my J.D. from the University of Missouri, Columbia, in 2007, and am licensed to practice law in the State of Missouri. I received my B.S. in Historic Preservation from Southeast Missouri State University, and took courses in architecture and literature at Drury University. Since beginning my employment with the MoPSC I have taken courses in economics through Columbia College and courses in energy transmission through Bismarck State College, and have attended various trainings and seminars, indicated below.

I began my employment with the Commission in May 2006 as an intern in what was then known as the General Counsel's Office. I was hired as a Legal Counsel in September 2007, and was promoted to Associate Counsel in 2009, and Senior Counsel in 2011. During that time my duties consisted of leading major rate case litigation and settlement, and presenting Staff's position to the Commission, and providing legal advice and assistance primarily in the areas of depreciation, cost of service, class cost of service, rate design, tariff issues, resource planning, accounting authority orders, construction audits, rulemakings and workshops, fuel adjustment clauses, document management and retention, and customer complaints.

In July 2013 I was hired as a Regulatory Economist III in what is now known as the Tariff / Rate Design Department. In this position my duties include providing analysis and recommendations in the areas of RTO and ISO transmission, rate design, class cost of service, tariff compliance and design, and regulatory adjustment mechanisms and tariff design. I also continue to provide legal advice and assistance regarding generating station and environmental control construction audits and electric utility regulatory depreciation. I have also participated before the Commission under the name Sarah L. Kliethermes.

Presentations

Midwest Energy Policy Series – Impact of ToU Rates on Energy Efficiency (August 14, 2020)

Billing Determinants Lunch and Learn (March 27, 2019)

Support for Low Income and Income Eligible Customers, Cost-Reflective Tariff Training, in cooperation with U.S.A.I.D. and NARUC, Addis Ababa, Ethiopia (February 23-26, 2016)

Fundamentals of Ratemaking at the MoPSC (October 8, 2014)

Ratemaking Basics (Sept. 14, 2012)

Participant in Missouri's Comprehensive Statewide Energy Plan working group on Energy Pricing and Rate Setting Processes.

Relevant Trainings and Seminars

FRI Advanced Seminar on Transformation Utility Pricing & Rate Design (April 7 - 9, 2025)

Regional Training on Integrated Distribution System Planning for Midwest/MISO Region (October 13-15, 2020)

"Fundamentals of Utility Law" Scott Hempling lecture series (January – April, 2019)

Today's U.S. Electric Power Industry, the Smart Grid, ISO Markets & Wholesale Power Transactions (July 29-30, 2014)

MISO Markets & Settlements training for OMS and ERSC Commissioners & Staff (January 27–28, 2014)

Validating Settlement Charges in New SPP Integrated Marketplace (July 22, 2013)

PSC Transmission Training (May 14 – 16, 2013)

Grid School (March 4–7, 2013)

Specialized Technical Training - Electric Transmission (April 18–19, 2012)

The New Energy Markets: Technologies, Differentials and Dependencies (June 16, 2011)

Mid-American Regulatory Conference Annual Meeting (June 5–8, 2011)

Renewable Energy Finance Forum (Sept. 29–Oct 3, 2010)

Utility Basics (Oct. 14–19, 2007)
