**ORDER ESTABLISHING TIME TO RESPOND TO MIEC AND
NORANDA'S MOTION FOR RECONSIDERATION**

Issue Date: April 22, 2011

Effective Date: April 22, 2011

On April 19, 2011, the Commission granted in part and denied in part Midwest Energy Users' Association's (MEUA) motion asking the Commission to compel MIEC and Noranda Aluminum to respond to certain data requests. On April 22, MIEC and Noranda filed a motion asking the Commission to reconsider a portion of that order. In particular, MIEC and Noranda ask the Commission to set aside the portion of the order that would compel them to produce all CRU data regarding the cost of alumina and labor costs for all U.S. aluminum smelters. The motion explains that CRU, the owner of the data, intends to charge Noranda a license fee of UK£10,000 (\$16,548.20) if the data in question is disclosed. MIEC and Noranda contend this cost would far exceed any probative value of the information and suggest that if MEUA wants the information it should be required to pay the license fee.

Kip Smith will be testifying for Noranda on Rate Design/Class Cost of Service issues on May 5, so the Commission will need to resolve this matter well before that date. For that reason, the Commission will direct MEUA to respond no later than April 25, 2011.

THE COMMISSION ORDERS THAT:

1. MEUA shall file its response to MIEC and Noranda Aluminum's Motion for Reconsideration no later than April 25, 2011.
2. This order shall become effective immediately upon issuance.
