BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI

In the Matter of the Application and Petition of Spire Missouri Inc. to Change its Infrastructure System Replacement Surcharge In its Spire Missouri East and West Service Territories	)))))	Case No. GR-2027-XXXX

APPLICATION AND PETITION OF SPIRE MISSOURI INC. TO CHANGE ITS INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE FOR ITS SPIRE MISSOURI EAST AND WEST SERVICE TERRITORIES, AND REQUEST FOR WAIVER FROM 60 DAY NOTICE RULE

COMES NOW Spire Missouri Inc. ("Spire Missouri" or "Company"), by and through undersigned counsel, and pursuant to §§ 393.1009, 393.1012 and 393.1015, RSMo. and 20 CSR 4240-2.060, 2.080 and 3.265 of the Rules of Practice and Procedure of the Missouri Public Service Commission ("Commission"), submits its Application to Change its Infrastructure System Replacement Surcharge ("ISRS") for its Spire Missouri East ("Spire East") and Spire Missouri West ("Spire West") Service Territories and Request for Waiver from the 60 Day Notice Rule, 20 CSR 4240-4.017(1), respectfully stating as follows:

BACKGROUND

1. §§ 393.1009, 393.1012 and 393.1015, RSMo. (the "ISRS statutes") authorize eligible gas corporations to recover certain infrastructure replacement costs through the implementation of an ISRS. Prior to implementing or changing ISRS, the gas corporation must file a petition with the Commission for review and approval before its rates and charges can be adjusted to provide for the recovery of the ISRS costs. Accordingly, the Company respectfully submits this Application and Petition to the Commission.

THE APPLICANT

2. Spire Missouri is a public utility and gas corporation incorporated under the laws of the State of Missouri, with its principal office located at 700 Market Street, St. Louis, Missouri 63101. A Certificate of Good Standing evidencing Spire East's and Spire West's standing to do business in Missouri was submitted in Case No. GF-2025-0053 and is incorporated by reference herein for all purposes. The information in such Certificate is current and accurate.

3. Spire Missouri is engaged in the business of distributing and transporting natural gas to customers in Missouri as a gas corporation subject to the jurisdiction of the Commission. Spire East provides gas service in eastern Missouri to customers in the City of St. Louis and the Counties of St. Louis, St. Charles, Crawford, Jefferson, Franklin, Iron, St. Genevieve, St. Francois, Madison, and Butler. Spire West provides gas service to western Missouri in the counties of Barry, Barton, Bates, Buchanan, Carroll, Cass, Cedar, Christian, Clay, Clinton, Cooper, Dade, Dekalb, Greene, Henry, Howard, Jackson, Jasper, Johnson, Lafayette, Lawrence, McDonald, Moniteau, Newton, Pettis, Platte, Ray, Saline, Stone, and Vernon.

4. Communications regarding this Application should be addressed to the undersigned counsel as well as:

Trisha Lavin
Senior Analyst, Regulatory Affairs
Spire Missouri Inc
700 Market Street
St. Louis, MO 63101
314-934-9838
trisha.lavin@spireenergy.com

5. Other than cases that have been docketed at the Commission, Spire Missouri has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court within the past three years that involves customer service or rates.

6. Spire Missouri is current on its annual report and assessment fee obligations to the Commission, and no such report or assessment fee is overdue.

7. Attached to this document is the Affidavit of Trisha Lavin stating that everything in this document is true and correct to the best of her knowledge.

THE ISRS REQUEST

8. Spire Missouri requests an adjustment to its rates and charges for its Spire East and Spire West service territories through the implementation of an ISRS rate schedule that provides for the recovery of costs incurred in connection with ISRS-eligible infrastructure system replacements made during the period of July 1, 2026, through December 31, 2026. Attached to this application as **Appendix A** is Spire East's recommended revenue requirement and supporting calculations and **Appendix B** is Spire West's recommended revenue requirement and supporting calculations, both of which are incorporated herein for all purposes.

9. Spire Missouri supports full recovery of its ISRS investments and asserts that all of the projects included in this filing are eligible under the ISRS statutes. The Company is confident it has provided the requisite evidence necessary to demonstrate the replacement of connected or associated facilities are part of a qualifying ISRS project compared to tying in or reusing existing facilities. Therefore, in accordance with the ISRS statutes, the ISRS revenue calculations included in Appendices A and B reflect an adjustment for the minimal incremental cost of replacement of connected or associated facilities, such as plastic or coated steel pipe, and are reflective of the Company's ISRS calculations pursuant to § 393.1009(5)(a), RSMo.

10. Consistent with prior filings approved by this Commission, and pursuant to §393.1015, RSMo, this Application also includes pro forma ISRS costs. The Company included pro forma costs for the months of November 2026 and December 2026 in this filing. In accordance with the ISRS statutes and 20 CSR 4240-3.265, the proposed ISRS rate schedules reflect the appropriate pre-tax ISRS revenues necessary to produce net operating income equal to Spire East and Spire West's weighted cost of capital multiplied by the net original cost of the requested infrastructure replacements during this period that are eligible for the ISRS. Spire Missouri additionally seeks to recover all federal, state and local income or excise taxes applicable to such ISRS income, and to recover all other ISRS costs such as depreciation expense and property taxes due within 12 months of this filing.

11. The revenue calculations in Appendices A and B produce incremental annual ISRS revenues for Spire East of $9,006,334 and Spire West of $12,986,076, respectively.

Eligibility of Costs

12. The infrastructure system replacements for which Spire Missouri requests ISRS recognition are set forth in Appendices A and B. As previously stated, these Appendices include the eligible infrastructure investments placed into service or to be placed into service on or after July 1, 2026. The infrastructure system replacements listed on Appendices A and B are eligible gas utility plant projects under one of the following, pursuant to § 393.1009(5), RSMo:

> a) mains, valves, service lines, regulator stations, vaults, and other pipeline system components installed to comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition or that can no longer be installed under currently applicable safety requirements or any cast iron or steel facilities including any connected or associated facilities that, regardless of their materials, age, or condition, are replaced as part of a qualifying replacement project in a manner that adds no incremental cost to a project compared to tying into or reusing existing facilities; or

b) main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life, or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements; or

c) unreimbursed infrastructure facility relocations due to the construction or improvement of a highway, road, street, public way or other public work required by or on behalf of the United States, the State of Missouri, a political subdivision of the State of Missouri, or another entity having the power of eminent domain.

13. In addition, the infrastructure system replacements listed on Appendices A and B are also eligible for ISRS treatment because they:

a) did not increase revenues by directly connecting to new customers;

b) are currently in service and used and useful;

c) were not included in Spire Missouri's rate base in its most recently completed general rate case, Case No. GR-2025-0107 (the "Rate Case"), and;

d) replaced and/or extended the useful life of existing infrastructure.

Rate Schedules, Calculations and Supporting Documentation

14. Included as Schedule 16 in both Appendices A and B are the rate schedules with supporting documents proposed by Spire Missouri in order to change its ISRS, for both its East and West service territories, and to provide for the adjustment of its rates and charges to reflect recovery of eligible infrastructure costs. This proposed rate schedule, on an annualized basis, will produce ISRS revenues of at least $1 million, but not in excess of 10% of Spire Missouri's base revenue level as approved by the Commission in the Rate Case.

15. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedules utilize current local, state, and federal income tax rates through a combined income tax rate conversion factor of 1.31305.

16. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedules are premised on a weighted average cost of capital of 7.05% post-tax, as approved in the Rate Case.

17. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedules utilize depreciation rates currently applicable to the eligible infrastructure system replacements, as approved by the Commission in the Rate Case.

18. In determining the appropriate monthly ISRS charge, the proposed rate schedules are based on a reasonable estimate of billing units for the period in which the charges will be in effect, which is derived by dividing the appropriate pre-tax revenues by the customer class billing determinants approved in the Rate Case, and then further dividing this quotient by twelve. (See Appendices A and B). Consistent with the methodology used in previous ISRS filings, the monthly ISRS charge is apportioned between customer classes in proportion to the customer charges applicable to those classes.

ADDITIONAL INFORMATION

19. Pursuant to 20 CSR 4240-3.265(22), attached hereto and incorporated herein as **Appendix C** is a description of the Company's call center instructions pertaining to the ISRS, along with a description of ISRS information posted on the Company's website.

20. Pursuant to 20 CSR 4240-3.265(8) and (9), Spire Missouri intends to continue using the annual notices and customer bill language approved by the Commission in Case No. GO-2018-0309.

Contractor Prequalification Process

21. § 393.1012.4, RSMo required gas corporations to develop and file a prequalification process for contractors seeking to participate in competitive bidding for ISRS-

eligible projects by July 1, 2021. Spire Missouri is compliant with this provision of the statute per the filing of its pre-qualification process on April 29, 2021, in Case No. GO-2021-0382. Additionally, a verified statement from the Company confirming that such pre-qualification process is in place was also filed in that same docket on October 8, 2021, in compliance with § 393.1012.4, RSMo.

Competitive Bidding Process

22. § 393.1012.4, RSMo also requires that the Company utilize a competitive bidding process for no less than 25% of installation expenditures for ISRS eligible gas plant projects. A statement confirming compliance with this provision of § 393.1012.4, RSMo is required with all ISRS petitions filed after January 1, 2022, and is included in the Affidavit of Trisha Lavin.

REQUEST FOR WAIVER

23. Commission Rule 20 CSR 4240-4.017(1) provides, in part, as follows:

> Any person that intends to file a case shall file a notice with the secretary of the commission a minimum of sixty (60) days prior to filing such case. Such notice shall detail the type of case and issues likely to be before the commission and shall include a summary of all communication regarding substantive issues likely to be in the case between the filing party and the office of the commission that occurred in the ninety (90) days prior to filing the notice.

Commission Rule 20 CSR 4240-4.017(1)(D) permits a party to request waiver of the above cited rule for good cause. This provision of the rule specifically provides that good cause may be established by submitting a verified declaration that the filing party has had no communication with the office of the commission within the prior one hundred fifty (150) days regarding any substantive issue likely to be in the case. The Company interprets this to mean that good cause is established if the filing party has had no communication with a member of the office of the Commission outside of pleadings or other public communications. Subject to that understanding,

the Company has included in the Affidavit of Trisha Lavin a statement that neither the Company nor any person or entity acting on behalf of the Company or its Missouri operating units has had any communication with a member of the office of the Commission in the last 150 days regarding any substantive issue relating to this case. For that reason, the Company requests that the Commission grant a waiver of the 60-day notice requirement for Spire Missouri's application to change its ISRS.

WHEREFORE, pursuant to § 393.1015.2(3), RSMo and 20 CSR 4240-3.265(12), Spire Missouri respectfully requests that the Commission issue an Order approving the ISRS rate schedules submitted in connection with this Application in order to provide for the recovery of the eligible infrastructure system replacement investments made by Spire East and Spire West from July 1, 2026, through December 31, 2026, and granting such other relief as may be necessary and appropriate to accomplish the purposes of §§ 393.1009 through 393.1015, RSMo. The Company further requests that Commission grant its request for waiver of the 60-day notice requirement for good cause.

Respectfully submitted,

ISRS Statute 393.1009(5)
Appendix A - Schedule 6

ISRS Statute 393.1009(5): Effective 28 Aug 2020

(a) Mains, valves, service lines, regulator stations, vaults and other pipeline system components installed to comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition or that can no longer be installed under currently applicable safety requirements or any cast iron or steel facilities including any connected or associated facilities that, regardless of their material, age, or condition, are replaced as part of a qualifying replacement project in a manner that adds no incremental cost to a project compared to tying into or reusing existing facilities;

(b) Main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements;

(c) Facilities relocations required due to construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain provided that the costs related to such projects have not been reimbursed to the gas corporation;

ISRS Statute 393.1009(5)
Appendix B - Schedule 6

ISRS Statute 393.1009(5): Effective 28 August 2020

(a) Mains, valves, service lines, regulator stations, vaults and other pipeline system components installed to comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition or that can no longer be installed under currently applicable safety requirements or any cast iron or steel facilities including any connected or associated facilities that, regardless of their material, age, or condition, are replaced as part of a qualifying replacement project in a manner that adds no incremental cost to a project compared to tying into or reusing existing facilities;

(b) Main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements;

(c) Facilities relocations required due to construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain provided that the costs related to such projects have not been reimbursed to the gas corporation;

Context and talking points for Customer Service

Pipeline Upgrade Charge (Infrastructure System Replacement Surcharge-ISRS)

November 2026

What is the Pipeline Upgrade Charge (ISRS) for?

We're committed to safely bringing reliable energy to the people we serve. In 2011, we developed a pipeline upgrade program to comply with a safety requirement to replace hundreds of miles of old pipe, over time, with a safer, more reliable material. The Pipeline Upgrade Charge (ISRS) allows the company to earn a return on the capital investment for these pipeline upgrades. The Pipeline Upgrade Charge (ISRS) also covers costs we incur to meet government requirements to relocate our pipelines for the greater good of the communities we serve, such as for road expansions.

Who approves or regulates this charge?

The Pipeline Upgrade Charge (ISRS) is authorized by Missouri law (Sections 393.1009-1015, RSMo.). The charge and amount are approved by the Missouri Public Service Commission (MoPSC).

How much is the charge?

As a result of this most recent filing, residential customers will now see a Pipeline Upgrade Charge (ISRS) on their bill:

- Missouri East-$3.09
- Missouri West-$4.08

How often can this charge change?

The amount of the charge, which you'll see on the front of your bill, can be adjusted up to two times within a twelve-month period pursuant to Missouri law. However, after a utility's general rate case filing, this charge is reset back to zero.

How do customers learn about the charge?

At the time the Pipeline Upgrade Charge (ISRS) was revised, we provided our customers with an initial notice about the change through a bill insert. We'll also send, once a year, a bill message to further educate customers about the charge.

Here is some helpful information for you to share with customers inquiring about the Pipeline Upgrade Charge (ISRS).

- We care about your safety, so in 2011, we developed a pipeline upgrade program to comply with a safety requirement to replace hundreds of miles of old pipe over time with safer, more reliable plastic pipes. The Pipeline Upgrade Charge (ISRS) allows the company to earn a return on the capital investment for these pipeline upgrades, including projects for the greater good of the communities we serve (i.e. road improvements).

- We work closely with the MoPSC to make sure rates are just and reasonabl, and we're following Missouri law. And according to those laws, we can file with the MoPSC to adjust the pipeline upgrade charge up to two times within a twelve-month period.

- This is a monthly charge and is not based on the amount of gas used.

- This charge is lower for residential customers than for commercial and industrial customers.
