Missouri PSC: PURPA Informational / Educational Workshop  
April 6, 2021

# CLEAN Future Act – PURPA Impacts

- Establishes a standard under PURPA that electric utilities consider implementation of non-wires solutions, or alternatives to traditional transmission infrastructure, when appropriate.
- Provides that costs be recovered in the same manner as transmission upgrades;
- Establishes a standard for electric utilities to consider implementation of non-wires solutions, or alternatives to traditional transmission infrastructure, when appropriate;
- Ensures QFs have the option to enter a fixed price contract (for energy);
- Establishes a standard that electric utilities offer a community solar program to all ratepayers;

# CLEAN Future Act – PURPA Impacts

- Reauthorizes, updates, and increases FY funding for rural and remote community electrification grants in Section 609:
  - Expand to include Indian tribes;
  - Increase the size of a rural area from 10,000 to 20,000 inhabitants;
  - Expand grant eligibility to areas impacted by the closure of a coal generating unit
- Amends section 111(d) to:
  - Require states to consider authorizing measures encouraging deployment of electric vehicle charging stations;
  - Allow utilities to recover from ratepayers' investments that further deployment of electric vehicle charging networks; and
  - Exclude from regulation as electric utilities entities selling electricity to the public solely through electric vehicle chargers
