

Ministers For Energy Conservation

We the undersigned wish to register before the Public Service Commission our support for the following issues and vehemently support the intervention granted to Bill Dias.

The **Public Service Commission** should direct KCPL to execute a new Memorandum of Understanding with the following terms and conditions dated October 27, 2006.

The **Public Service Commission** should direct KCPL to allow all of its customers the Flexibility to have "Delayed Due Dates"

The **Public Service Commission** should direct KCPL to participate in Alternative Credit Score Programs.

The **Public Service Commission** should direct KCPL to appoint Dias as an authorized payment agent per the executed Memorandum of Understanding dated February 12, 2001 thereby insuring we have minority participation as a third party vender.

The **Public Service Commission** should direct KCPL to participate in "Energy Conservation Programs" that will provide consultation, weatherization, materials, installation and On-Time Bill Payment even if the KCPL customer does not income qualify for Low-Income help. The Commission should direct KCPL to underwrite the cost of the program and charge it back to the customer. The Commission should direct KCPL that this program is to be independent of the customer's utility bill and that repayment is to be based on a customer's ability to repay.

The **Public Service Commission** should direct KCPL to continue the existing tariff program that allows small churches to receive a 50% rate reduction. Also, the Commission should direct KCPL to expand this tariff program so that all churches can receive this 50% rate reduction.
