CASE NOS. ER-2004-0034 AND HR-2004-0024 (Consolidated)

January 2004 Case No(s). EC-2004

BEFORE THE PUBLIC SERVICE COMMISSION OF THE STATE OF MISSOURI

In the matter of Aquila, Inc. d/b/a Aquila netw L&P and Aquila Networks MPS to impleme general rate increase in electricity.	
In the matter of Aquila, Inc. d/b/a Aquila netw L&P to implement a general rate increase in St Rates.	· ·
AFFIDAVIT OF PHILLIP	K. WILLIAMS, CPA, CIA
STATE OF MISSOURI)) ss. COUNTY OF COLE)	
the preparation of the following rebuttal testin pages to be presented in the above of testimony were given by him; that he has knowled that such matters are true and correct to the best	ge, on his oath states: that he has participated in nony in question and answer form, consisting of case; that the answers in the following rebuttal ledge of the matters set forth in such answers; and of his knowledge and belief. Shillip K. Williams, CPA, CIA

Subscribed and sworn to before me this 2000 day of January 2004.

CHARLO TARY SEAL OF MICHAEL OF MI

FONI M. CHARLTON NOTARY PUBLIC STATE OF MISSOURI COUNTY OF COLE My Commission Expires December 28, 2004

1	REBUTTAL TESTIMONY
2	OF
3	PHILLIP K. WILLIAMS, CPA, CIA
4	AQUILA, INC.
5	D/B/A AQUILA NETWORKS – MPS (ELECTRIC)
6	AND AQUILA NETWORKS – L&P (ELECTRIC & STEAM)
7	CASE NOS. ER-2004-0034 AND HR-2004-0024
8	(CONSOLIDATED)
9	Q. Please state your name and business address.
10	A. My name is Phillip K. Williams, and my business address is Noland Plaza
11	Office Building, Suite 110, 3675 Noland Road, Independence, Missouri 64055.
12	Q. By whom are you employed and in what capacity?
13	A. I am a Regulatory Auditor for the Missouri Public Service Commission
14	(Commission).
15	Q. Are you the same Phillip K. Williams, who has previous filed direct testimony
16	in this case?
17	A. Yes, I am. I filed direct testimony on December 9, 2003, on the area of
18	allocations.
19	Q. What is the purpose of your rebuttal testimony in this proceeding?
20	A. I am responding to the direct testimony of Aquila, Inc. (Aquila or Company)
21	witness Mr. Keith Stamm, Aquila's Senior Vice President and Chief Operating Officer. At
22	page 3, line 12, of Mr. Stamm's direct testimony he states, "while we believe that a \$79.0
23	million revenue increase for the MPS electric operations is fully supported and justified, we

- also recognize that the impact on customers from a 23.4% increase would be significant.
- Therefore, Aquila senior management made the decision to mitigate the impact somewhat by having the Company absorb a portion (about \$14 million) of the revenue deficiency."
 - Q. What are Aquila's electric rates in relation to Missouri's other regulated electric utilities?
 - A. Aquila Networks MPS's (MPS) existing rates for 2002, are the second lowest in Missouri. However, if the proposed electric rate increase for MPS is granted, MPS will have the highest electric rates in the state. For the years 1995 through 1999 my analysis shows that MPS electric rates were the highest in the state. However, they were in the middle of the five companies analyzed for the years 2000 and 2001.
 - Q. Will you please provide this Commission with a comparison of costs for the electric residential customers of Aquila Networks MPS with respect to other Missouri investor-owned electric utilities?
 - A. Yes. Attached as Schedule 1 to my testimony, is a comparison of the operating revenues divided by kilowatt-hour (kWh) sales, of Missouri's four largest investor-owned utilities, with five rate jurisdictions by year for the period 1995-2002. Aquila, Inc. has two electric divisions' they are Aquila Networks MPS (Missouri Public Service) and Aquila Networks L&P (St. Joseph Light and Power). The revenue per kWh numbers represent the residential customer's cost per kWh. Operation revenues divided by kWh sales is equivalent to cents per kWh of operating revenues. Cents per kWh of operating revenues is equal to the cost per kWh of energy charged to the customers by utilities.
 - This information was supplied in Annual reports filed with the Commission and can be found on pages 300 and 301 of the FERC Form 1. Of the four largest investor owned

	Rebuttal Testimony of Phillip K. Williams, CPA, CIA								
1	electric utilities Aquila Networks - MPS cost per kWh for the residential customers is								
2	currently in the middle of the range for the five rate jurisdictions. However a rate increase of								
3	the magnitude requested by the Company for the Aquila Networks - MPS division would								
4	change the cost per kWh for the Aquila Networks – MPS division to the highest cost per								
5	kWh in the state for the residential customers.								
6	The following information is a summary of the analysis included in Schedule 1 of my								
7	testimony.								
8	1995								
9 10	MPS' average rate per kWh of \$.082040 was the highest of the five Companies.								
11 12	MPS' average rate per kWh was 3.965% higher than the next highest rate.								
13	L&P's average rate per kWh of \$.060620 was the second lowest rate.								
14	1996								
15 16	MPS' average rate per kWh of \$.080530 was the highest of the five Companies.								
17 18	MPS' average rate per kWh was 2.6854% higher than the next highest rate.								
19 20	L&P's average rate per kWh of \$.059532 was the lowest rate of the five companies.								
21	1997								
22 23	MPS' average rate per kWh of \$.080488 was the highest of the five Companies.								
24 25	MPS' average rate per kWh was 4.3659% higher than the next highest rate.								
26 27	L&P's average rate per kWh of \$.059646 was the lowest rate of the five companies.								
28	1998								

	Rebuttal Test Phillip K. Wi	illiams, CPA, CIA
1 2		MPS' average rate per kWh of \$.077185 was the highest of the five Companies.
3		MPS' average rate per kWh was 1.928% higher than the next highest rate.
5 6		L&P's average rate per kWh of \$.060685 was the lowest rate of the five companies.
7		1999
8 9	ĺ	MPS' average rate per kWh of \$.075736 was the highest of the five Companies.
10		MPS' average rate per kWh was 0.2038% higher than the next highest rate.
12 13		L&P's average rate per kWh of \$.060288 was the lowest rate of the five companies.
14		2000
15 16		MPS' average rate per kWh of \$.07180 was the mid point rate of the five Companies.
17 18		L&P's average rate per kWh of \$.058938 was the lowest rate of the five companies.
19		2001
20 21		MPS' average rate per kWh of \$.070483 was the mid point rate of the five Companies.
22 23		L&P's average rate per kWh of \$.057318 was the lowest rate of the five companies.
24		2002
25 26		MPS' average rate per kWh of \$.069823 was the second lowest rate of the five Companies.
27 28		L&P's average rate per kWh of \$.057606 was the lowest rate of the five companies.
29	Q.	Do you have any other information concerning the relative rate levels of
30	Aquila Netw	orks – MPS and Aquila Networks – L&P?

the Company, and the proposed increase to those rates Staff is concerned. Because, the

21

- Q. Do you have any additional information concerning the rate of the Company?
- A. Yes. Attached to my testimony as Schedule 3, pages 3-2 and 3-3 is a Company analysis used by the Company's Chief Executive Officer Richard Green showing the Company's current rate comparison using a bar graph to a number of other electric utilities within the industry and the Aquila rate comparison after the proposed increase. The Company's analysis shows the current rates for Aquila Network MPS as the eleventh lowest rate of 31 companies depicted. However, Aquila Networks MPS becomes the highest rates of all companies depicted if the proposed increase were implemented in full.
 - Q. How did the Company use the above analysis?
- A. Aquila conducted a series of meetings with its customers in various locations throughout the Company's service territory. These Community meetings were held shortly before the Company filed its July 3, 2003, rate increase application with the Commission. The rate analysis was part of a packet of information that was provided to the customers taking part in the meeting.
 - Q. Does this conclude your rebuttal testimony?
 - A. Yes.
