

SECTION 3 - DESCRIPTION OF SERVICE, CONT.

3.2 Caller ID Language

Line blocking for the delivery of the calling name and/or number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residence of employees/volunteers, where an executive officer of the agency registers with the telephone company a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. Line blocking customers can unblock their calling name and/or number information on a per call basis, at no charge, by dialing an access code (*82 on their Touch-Tone pad or 1182 from a rotary phone) immediately prior to placing a call.

A customer may prevent the delivery of their calling name and/or number to the called party by dialing an access code (*67 on their Touch-Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge. If the calling party activates blocking, the name and/or number will not be transmitted across the line to the called party. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of their name and telephone.

The Company shall not be liable for any claims for damages caused or claimed to have been caused, directly, by the transmission to a Caller ID customer of a name or telephone number which the calling party of the Caller ID customer finds erroneous, offensive, embarrassing, or misleading for any reason, including but not limited to the way in which the calling party's name has been abbreviated.

Telephone CPN information transmitted via Caller ID is intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by this tariff.

3.5 Operator-Assisted Services, cont.

REC'D SEP 13 1999

3.5.1 Operator Dialed Surcharge

This surcharge applies to Operator Station and Person-to-Person rated calls when the Customer has the capability of dialing all the digits necessary to complete a call, but elects to dial only the appropriate operator code and requests the operator to dial the called station. The surcharge does not apply to:

- 1) calls where a Customer cannot otherwise dial the call due to defective equipment or trouble on the Intermedia network and (T)
- 2) Calls in which a Company operator places a call for a calling party who is identified as being handicapped and unable to dial the call because of his/her handicap.

The Operator Dialed Surcharge applies in addition to any other applicable operator charges.

3.5.2 Busy Line Verify and Line Interrupt Service

Upon request of a calling party, the Company will verify a busy condition on a called line. The operator will determine whether the line is clear or in use and report its status to the calling party. The operator will interrupt the call on the called line only if the calling party indicates an emergency and requests interruption. A charge will apply when:

1. The operator verifies that the line is busy with a call in progress;

2. Local Calling Areas

When the customer purchases PRI Service services from Intermedia, the customer must designate one of the Intermedia local calling areas as the customer's "home calling area." The Intermedia local calling areas match existing ILEC local calling areas.

When the customer is not collocated with the Company's switch, the customer's service address dictates the relevant home calling area.

When the customer collocates with a Company switch location, the customer may choose which of the local calling areas served by the Company switch will be the customer's home calling area.

The customer may only designate one local calling area as the home calling area from among the local calling areas served by the Company switch. All other local calling areas served by that switch will be considered Virtual FX calling areas with respect to the customer's designated home calling area. A Virtual FX charge applies to each PRI Service provided to the customer in a Virtual FX calling area. A Virtual FX calling area is any local calling area which, although served by the same Company switch, is not the customer's designated home calling area.

3. Rate Regulations

a. PRI Service Term

PM Service is offered on a minimum 12-month term only. Should service be discontinued in less than 12 months after installation, termination charges shall apply. A service terminated during the first 12 months will be charged at the monthly rate multiplied by the number of months left on the 12-month term.

b. Discounts

Volume discounts are available on installation and service provided herein. The volume level is determined by the total numbers of PRI's provided to the customer by the Company.

PRODUCT	DESCRIPTION
Custom Calling Features	Listed separately below:
Call Waiting*	Provides a signal to let customer know when someone is trying to reach the line the customer is currently using,
Cancel Call Waiting*	Allows a customer to prevent, on a per-call basis, any incoming calls from sending call-waiting signals to his/her line. Incoming calls to the line are given normal busy treatment.
Call Forwarding	Provides the customer with the ability to reroute calls to any valid telephone number (except international numbers). The costs of the forwarded call are passed on to the customer only if the call is answered. A call can also be forwarded to a selected telephone number when the customer's line is busy or unanswered.
Call Forwarding - Busy Line	When the customer's line is busy, this service automatically routes incoming calls to Voice Mail Service or to another number, including a long distance number.
Call Forwarding - Don't Answer	Automatically routes an unanswered call after a specified number of rings. The customer specifies the number of rings when the service is ordered,
Call Forwarding - Remote Access	Permits the "Call Forwarding-Universal" customer to activate, change, or deactivate call forwarding service from any touch tone telephone.
Ring Again (Automatic Callback)	Allows the customer encountering a busy signal to be notified when the called number becomes idle, and to be placed automatically in ring-again

Intermedia's Resold Services are offered for local calling using the resold services of the ILEC.

Intermedia resells business and residential lines and optional services of the ILEC.

Resold features associated with resold local exchange service will be priced according to the rates established for such features in the underlying carrier's effective intrastate tariffs. The rates for specific resold services are set forth in Section 4 - Rates.

(T)

(T)

If a Subscriber's service changes from business service to residential service, the telephone number will normally be changed. Reference of calls will not normally be provided regardless of how long existing directories will remain in effect. Changes from residential to business service may be made without change in telephone number, if the subscriber so desires.

3.2 Caller ID Language

Line blocking for the delivery of the calling name and/or number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residence of employees/volunteers, where an executive officer of the agency registers with the telephone company a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. Line blocking customers can unblock their calling name and/or number information on a per call basis, at no charge, by dialing an access code (*82 on their Touch-Tone pad or 1182 from a rotary phone) immediately prior to placing a call.

A customer may prevent the delivery of their calling name and/or number to the called party by dialing an access code (*67 on their Touch-Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge. If the calling party activates blocking, the name and/or number will not be transmitted across the line to the called party. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of their name and telephone.

The Company shall not be liable for any claims for damages caused or claimed to have been caused, directly, by the transmission to a Caller ID customer of a name or telephone number which the calling party of the Caller ID customer finds erroneous, offensive, embarrassing, or misleading for any reason, including but not limited to the way in which the calling party's name has been abbreviated.

Telephone CPN information transmitted via Caller ID is intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by this tariff.

REC'D SEP 13 1999

3.5.1 Operator Dialed Surcharge

This surcharge applies to Operator Station and Person-to-Person rated calls when the Customer has the capability of dialing all the digits necessary to complete a call, but elects to dial only the appropriate operator code and requests the operator to dial the called station. The surcharge does not apply to:

- 1) calls where a Customer cannot otherwise dial the call due to defective equipment or trouble on the Intermedia network and (T)
- 2) Calls in which a Company operator places a call for a calling party who is identified as being handicapped and unable to dial the call because of his/her handicap.

The Operator Dialed Surcharge applies in addition to any other applicable operator charges.

3.5.2 Busy Line Verify and Line Interrupt Service

Upon request of a calling party, the Company will verify a busy condition on a called line. The operator will determine whether the line is clear or in use and report its status to the calling party. The operator will interrupt the call on the called line only if the calling party indicates an emergency and requests interruption.

A charge will apply when:

1. The operator verifies that the line is busy with a call in progress;

43.1 Resold Exchange Access Lines

The Company concurs in the rules and regulations applying to and governing Basic Local Exchange telephone service (hereinafter referred to as Exchange Access Lines service) as set forth in the Southwestern Bell Telephone Company Local Exchange and General Exchange tariffs on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates and specific footnotes of Southwestern Bell Telephone Company for Exchange Access Line telephone services. Rates and specific footnotes for these services are set out in the following pages of this concurrence.

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

Logix Communications offers the following business services.

Missouri Public
Service Commission

REC'D OCT 28 1999

2.1. Exchange Access Lines

The Company concurs in the rules and regulations, including all footnotes thereto, applying to and governing Local Exchange telephone service (hereinafter referred to Exchange Access Lines service) as set forth in the Southwestern Bell Telephone Company Local Exchange tariff on file with and approved by the Public Service Commission of the State of Missouri, and any amendments thereto authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates of Southwestern Bell Telephone Company for Exchange Access Line telephone services. Rates for these services are set out in the following pages of this concurrence.

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

Applicability

This tariff applies to the Telephone Company's provision, both facilities-based and resale, of telecommunications services within the Southwestern Bell Telephone Company exchanges which are located within the Telephone Company's authorized territories within the State of Missouri.

- 2 Refer to SWBT PSC Mo. 35, Section 474 for definitions of Features.
- 3 Available only to existing customers at existing locations
- 4 Caller ID (Calling Number and Name delivery). This feature enables the customer to view on a display unit the Calling Party Directory Name and/or Number (CPN) on incoming telephone calls.

When Caller ID is activated on a customer's line, the CPN of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle

Per line blocking for the blocking of CPN will be available upon request, at no charge, to the following entities for lines over which the official business of the agency is conducted, including those at the residences of employees/volunteers, where an executive officer of the agency registers a need for blocking and provides the required certification to garner

- (a) private, nonprofit tax exempt, domestic violence intervention agencies and
- (b) federal, state, and local law enforcement agencies,

The CPN will not be transmitted from a line equipped with this capability. Per line blocking is operational on a continuous basis but can be deactivated by the customer by dialing an access code immediately prior to placing a call

Line blocking customers can unblock their CPN information on a per call basis, at no charge by dialing an access code (*82 on their Touch Tone pad or 1182 from a rotary phone) immediately prior to placing a call

A customer may prevent the delivery of their calling name and or number to the called party by dialing an access code (*67 on their Touch Tone pad or 1167 from a rotary phone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge. If the calling party activates blocking, the CPN will not be transmitted across the line to the called party. Instead, Calling Line Identification customers will receive an anonymous indicator. This anonymous indicator notifies the caller ID customer that the calling party has elected to block the delivery of their name and telephone number. The blocking of CPN will not be provided on calls originating from Customer-Owned Pay Telephone Service. If the Caller ID customer also subscribes to Anonymous call Rejection, the calling party will be routed to a telephone company recording advising the caller that the called party will not accept calls whose CPN has been blocked

Any customer subscribing to Caller ID will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein

Telephone CPN information transmitted via Caller ID is intended solely for the use of the caller ID subscriber. The resale of this reformation is prohibited by this Tariff. CPN will not be displayed if the called party is off-hook or if the called party answers during the first ring interval. CPN will be displayed for calls made from another central office only if it is lurked by appropriate facilities. Caller ID is not available on operator handled calls

- 5 Call Trace Customers receiving annoying or anonymous calls may request (1) a telephone number change which will be provided at no charge by the Company, or (2) the capability to utilize Call Trace on a per activation basis, as needed. Call Trace allows the customer to dial a code (*57) to automatically request that the following information be recorded: the originating telephone number, the date and time of the call, and the date and time Call Trace was activated. When Call Trace successfully identifies a calling number, a recording instructs the customer to call a toll free number, which will activate a Voice Response Script and assist the customer in establishing an open file. Should the customer decide to prosecute the call originating party, the customer should contact the Company for further instructions. Activation of Call Trace never authorizes the Company to provide the called party with the name or telephone number of the calling party. In the event that Call Trace is not available or is unable to resolve the case, it may be necessary to place a manual trap on the customer's telephone line
