**DIRECT TESTIMONY**  
**DENNIS R. WILLIAMS**

**I. WITNESS INTRODUCTION**

**Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.**

A. My name is Dennis R. Williams. I am employed by American Water Works Service Company, Inc. ("AWWS"), 727 Craig Road, St. Louis, Missouri 63141.

**Q. WHAT IS YOUR RELATIONSHIP TO MISSOURI-AMERICAN WATER COMPANY ("MISSOURI-AMERICAN" OR "MAWC" OR THE "COMPANY")?**

A. I am employed as Senior Manager – Rates and Regulation for the Central Division of AWWS, which includes Missouri-American.

**Q. PLEASE SUMMARIZE YOUR EDUCATIONAL BACKGROUND AND PROFESSIONAL EXPERIENCE.**

A. I received a Bachelor of Science in Business Administration, summa cum laude, from the University of Central Missouri, with majors in accounting and finance. After graduation, I was licensed in Missouri as a Certified Public Accountant and employed as an auditor in the Regulated Industries division of Arthur Andersen & Company. After leaving Arthur Andersen, I was

1 employed for five years with a regulatory consulting firm. Thereafter, I joined  
2 the Regulatory Services department of Aquila, Inc., formerly an electric and  
3 gas utility, headquartered in Kansas City. I served in a number of roles at  
4 Aquila, progressing to the position of Vice President – Regulatory Services. I  
5 joined AWWWS in my current capacity in May 2008. Over the years I have  
6 participated in regulatory proceedings in 19 jurisdictions and provided  
7 testimony in ten states, Canada and Australia.

8  
9 **II. SUMMARY OF TRANSACTION**

10  
11 **Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THIS PROCEEDING?**

12 **A.** The purpose of my testimony is to explain the Company's application to  
13 obtain certificates of public convenience and necessity to acquire and  
14 manage small water and sewer systems in Christian and Taney Counties,  
15 Missouri. In order to provide service to the proposed area, MAWC will  
16 purchase the assets of a water distribution system and sewer system from  
17 Saddlebrooke Water and Sewer Infrastructure, LLC ("Saddlebrooke"), a  
18 Missouri limited liability company.

19  
20 These properties have not previously been regulated and therefore have no  
21 rates currently authorized by the Missouri Public Service Commission ("PSC"  
22 or "Commission"). I will also explain the Company's recommendation for

1 setting initial regulated rates for the customers that will be impacted by the  
2 acquisition.

3

4 **Q. PLEASE DESCRIBE THE PROPERTIES THAT MAWC INTENDS TO**  
5 **ACQUIRE.**

6 **A.** Saddlebrooke is an incorporated village, generally known as the  
7 Saddlebrooke subdivision. There are 81 homes in this subdivision. Water  
8 and sewer distribution and collection pipelines have been constructed to  
9 serve 565 lots. The developer originally had plans to develop approximately  
10 1,100 lots. The primary utility assets of Saddlebrooke include a single deep  
11 well, a 250,000 gallon storage tank and the distribution and collection  
12 systems. Utility assets would be acquired by MAWC and be subject to the  
13 jurisdiction of the Commission. The grant of the requested certificates (and  
14 approval of the underlying transaction) will result in regulated water and  
15 sewer service to be provided to the current and future residents of  
16 Saddlebrooke subdivision.

17

18 **Q. PLEASE DESCRIBE THE WATER AND SEWER SERVICE TERRITORY**  
19 **FOR WHICH MAWC IS REQUESTING CERTIFICATES.**

20 **A.** Originally, the Company requested a water service area based on United  
21 States Geological Survey sections, and a sewer service area based on the  
22 existing watershed. The PSC Staff recommended that the sewer and water  
23 certificated service territories be the same. The Company agrees and,

1           therefore, would amend its request and ask that the service area initially  
2           reflected in its Application for sewer service also be the service area for water  
3           service. The legal description and map of the Company's proposed  
4           certificated area for both the water and sewer systems is included on the  
5           Company's proposed tariff sheets attached as Schedule DRW - 1.

6  
7   **Q.   DO YOU BELIEVE THAT MISSOURI-AMERICAN IS QUALIFIED TO OWN**  
8   **AND OPERATE THESE ASSETS?**

9   **A.**   Yes. MAWC currently provides service to approximately 454,000 water and  
10   3,200 sewer customers throughout Missouri. MAWC, or its predecessor  
11   companies, has operated as a public utility in Missouri for over one hundred  
12   years. The Company's vast experience shows that it is qualified to operate  
13   the subject water and sewer systems. Further, MAWC has demonstrated  
14   over the years that it has sufficient financial resources to operate such  
15   systems.

16  
17   **Q.   WHAT IS YOUR UNDERSTANDING AS TO THE CONDITION OF THE**  
18   **CURRENT OPERATOR?**

19   **A.**   It is the Company's understanding that Saddlebrooke is facing financial  
20   challenges that may impact continued operation of the existing water and  
21   sewer systems. The systems have received non-compliance letters from the  
22   Missouri Department of Natural Resources. MAWC has adequate technical,

1 managerial and financial experience and expertise to bring the system into  
2 compliance and safely and reliably operate the system.

3  
4 **Q. WILL ADDITIONAL INVESTMENT BE REQUIRED IF MAWC ACQUIRES  
5 THESE SYSTEMS?**

6 **A.** Yes. As a result of issues outlined in letters from the Missouri Department of  
7 Natural Resources, the Company will be required to install security fencing  
8 and a back-up pump for the water operations and will be required to build a  
9 test well for the sewer system.

10  
11 **Q. HAS MAWC TAKEN THIS FACT INTO ACCOUNT IN ANALYZING THE  
12 FINANCIAL ASPECTS OF ITS POTENTIAL PURCHASE OF THESE  
13 SYSTEMS?**

14 **A.** Yes. These system improvements will cost approximately \$31,000 and are  
15 included in the investment costs included in the financial model submitted  
16 with the testimony of the Company's witness Brian LaGrand.

17  
18 **Q. ARE THESE PROPERTIES LOCATED SUCH THAT MAWC WILL BE ABLE  
19 TO UTILIZE EXISTING COMPANY RESOURCES?**

20 **A.** Yes. The Saddlebrooke water and sewer systems are located in reasonably  
21 close proximity to MAWC's existing Stonebridge water and sewer system and  
22 synergies will be available through the application of existing operational and  
23 administrative management to the newly acquired properties.

18  
19  
20  
21  
22

**Q. WILL IT BE NECESSARY FOR MAWC TO ENTER INTO A FRANCHISE AGREEMENT AS TO THIS SERVICE AREA?**

**A.** Yes. Saddlebrooke is an incorporated village and therefore MAWC has negotiated and entered into a franchise agreement with the village. An ordinance approving the franchise agreement was passed by the village Board of Trustees on December 7, 2011, was filed with the Company's Supplement to Application for Certificate of Convenience and Necessity in this case and is attached hereto as Schedule DRW - 2.

**Q. HAS THE COMPANY ALSO ENTERED INTO AN ASSET PURCHASE AGREEMENT IN REGARD TO ITS REQUEST FOR A CERTIFICATE?**

**A.** Yes. An Asset Purchase Agreement ("APA") was entered into with Saddlebrooke and was included in the Company's original application. The parties further signed an Amendment to the Asset Purchase Agreement, which was filed as part of the Company's Supplement to Application. The APA has been identified as Highly Confidential and is attached hereto as Schedule DRW - 3. The Amendment is also denoted as Highly Confidential and is attached hereto as Schedule DRW - 4.

**III. TARIFF RECOMMENDATION**

1 **Q. WHAT RATES IS THE COMPANY PROPOSING TO APPLY TO SERVICE**  
2 **IN THE NEWLY ACQUIRED SERVICE AREA?**

3 **A.** The Company is proposing that the water customers in this newly acquired  
4 area be served pursuant to Rate Schedule A for service in Stone & Taney  
5 Counties, Missouri (P.S.C. MO. NO. 15, 4<sup>th</sup> Revised SHEET NO. 1) that will  
6 become effective on April 1, 2012. This would establish rates at the same  
7 level as rates in the Company's Stonebridge service area. The Company  
8 proposes to provide sewer service at rates consistent with Rate Schedule B  
9 for service in Stone and Taney Counties, Missouri (P.S.C. MO. NO. 14, 2<sup>nd</sup>  
10 Revised SHEET NO. 1a) that will become effective on April 1, 2012.

11

12 **Q. ARE THERE ANY CHANGES TO THOSE RATES THAT WILL BE**  
13 **NECESSARY?**

14 **A.** Yes. There is one change that will be proposed to both these tariff sheets.  
15 During the ten-year period following closing and up to the first 200 new  
16 customers in the Saddlebrooke subdivision, MAWC would collect connection  
17 fees of \$2,800 for new water customers and \$2,800 for new sewer customers.  
18 New customers connecting to both the water and sewer systems would pay a  
19 total of \$5,600.

20

21 **Q. WHAT IS THE PURPOSE OF THE CONNECTION FEES?**

22 **A.** The current owners of the Saddlebrooke properties have made substantial  
23 investment in the water distribution and sewer collection systems in the

1 subdivision areas that are not currently developed. In its determination of  
2 purchase price, MAWC did not include any payment for this property, but  
3 instead considered it to be a contribution in aid of construction. Therefore,  
4 this investment would not be included in rate base in setting future rates. The  
5 funds collected by MAWC under this tariff would immediately be refunded to  
6 Saddlebrooke as established by the Asset Purchase Agreement. The  
7 intention of this approach is to reimburse Saddlebrooke for infrastructure  
8 investment made, while limiting the rate impacts on existing customers served  
9 in the area. Customers are protected from paying in their rates the costs of  
10 investment not currently utilized, while the current owner still has the  
11 opportunity, through connection fees charged to new customers, to recoup  
12 some of its investment.

13  
14 **Q. IS THE CURRENT OWNER GUARANTEED FULL RECOVERY OF ITS**  
15 **INVESTMENT?**

16 **A.** No. MAWC will treat the maximum amount of possible remittances to  
17 Saddlebrooke of \$761,600 under this tariff provision as a contribution.  
18 However, the tariff provision will expire 10 years after the effective date of the  
19 new tariff or upon reaching the maximum of 200 customers, whichever comes  
20 first.

21  
22 **Q. DOES THE STAFF AGREE WITH THE PROPOSAL REGARDING**  
23 **CONNECTION FEES PREVIOUSLY DESCRIBED?**

1    **A.**    It is my understanding from the Staff Recommendation that it does.

2

3    **Q.**    **HAS THE MISSOURI STAFF INDICATED THAT THEY AGREE WITH THE**  
4    **COMPANY'S RATE PROPOSAL?**

5    **A.**    No. The Staff Recommendation stated in part that MAWC had a pending rate  
6    case, Case No WR-2011-0337, and that it believed rates for Saddlebrooke  
7    should not be changed because of the pending case, nor should they be  
8    consolidated with any other system as a result of the pending case.

9

10   **Q.**    **HAS ANYTHING CHANGED REGARDING THE STATUS OF CASE NO.**  
11    **WR-2011-0337?**

12   **A.**    Yes. A Stipulation and Agreement was reached in that case and later  
13    approved by the Commission. New tariffs established as a result of Case No.  
14    WR-2011-0337 will become effective on April 1, 2012.

15

16   **Q.**    **HOW DOES THAT CASE AFFECT THE RATES THAT SHOULD BE**  
17    **AUTHORIZED FOR SADDLEBROOKE?**

18   **A.**    As a result of the Order approved by the PSC in Case No. WR-2011-0337,  
19    the rates of a number of smaller communities were consolidated into a single  
20    district with equal customer service charges and three groups, or tiers, of  
21    variable commodity rates. Saddlebrooke certainly falls within the category of  
22    a small community and, as indicated in the financial analysis supported by  
23    Company witness Brian LaGrand, pro forma costs plus return align most

1 closely with the grouping of commodity rates that include the Stonebridge  
2 service area. Application of these rates, along with the rate base and  
3 operating costs reflected by Mr. LaGrand, results in a return on investment  
4 that is very similar to what the Company believes was imputed in the recent  
5 rate case settlement.

6  
7 **Q. MUST THE COMMISSION ADDRESS RATES IN SOME FASHION IN THIS**  
8 **CASE?**

9 **A.** Yes. Much like a more stereotypical certificate application case where a utility  
10 is expanding into new territory, there are no rates currently approved by the  
11 Commission for the Saddlebrooke subdivision. As noted in the Staff  
12 Recommendation, ongoing operating costs are subject to some estimation.  
13 This is due both to the lack of existing records and due to operational  
14 changes that are likely to occur under new management. Creating a new rate  
15 district for 81 residences seems to be counter-productive when an existing  
16 small-system rate that results in reasonable returns is available for use. The  
17 Company commits, however, to maintain separate cost and investment  
18 accounting records for the Saddlebrooke service area at least until the next  
19 MAWC rate case, so that rates can be re-evaluated in the context of a full rate  
20 proceeding with cost data that is more reliable.

21  
22 **Q. DOES THE COMPANY HAVE ANY OTHER PROPOSED CHANGES TO**  
23 **EXISTING TARIFF SHEETS?**

1    **A.**    Yes. MAWC proposes to utilize the consolidated rules and regulations of its  
2           existing water service territories approved by the Commission and effective  
3           October 15, 2011. However, the existing tariff sheets that read Stone and  
4           Taney Counties, Missouri would need to be modified to read Stone, Taney  
5           and Christian Counties, Missouri.

6           For sewer operations, MAWC proposes to utilize the consolidated rules and  
7           regulations of Stone and Taney Counties, Missouri, the service area that  
8           includes Stonebridge. The tariffs would need to be changed to be applicable  
9           to Stone, Taney and Christian Counties, Missouri. In addition, MAWC  
10          believes there is one exception to those existing rules regarding grinder  
11          pumps and agrees with the language as outlined in Appendix E to the Staff  
12          Recommendation. For both water and sewer, the tariff sheets also would  
13          have to reflect the proposed connection fees. All proposed revisions to the  
14          various tariff sheets are included in Schedule DRW – 1.

15

16    **Q.    DOES MAWC’S PROPOSAL PROMOTE THE PUBLIC INTEREST?**

17    **A.**    Yes. The grant of the requested certificates (and approval of the underlying  
18           transaction) will result in regulated water and sewer service to be provided to  
19           the current and future residents of Saddlebrooke subdivision. The assets of  
20           Saddlebrooke would be acquired by MAWC, a Missouri public utility, and be  
21           subject to the jurisdiction of the Commission. MAWC has considerable  
22           expertise and experience in providing water and sewer utility services to

1 residents of the State of Missouri and is fully qualified, in all respects, to own  
2 and operate the systems currently being operated by Saddlebrooke.

3

4 **Q. DOES THIS CONCLUDE YOUR DIRECT TESTIMONY?**

5 **A.** Yes, it does.

<b>RULES AND REGULATIONS GOVERNING RENDERING OF WATER SERVICE</b>
<b>Rule 11 METERS AND METER INSTALLATIONS</b>
<p>(a) All permanent service connections shall be metered. The Company's installed meter shall be the standard for measuring water used to determine the bill.</p> <p>(b) All meters and meter installations shall be furnished, installed, maintained and removed by the Company and shall remain its property.</p> <p>(c) The Company shall have the right to determine on the basis of the Customer's flow requirements the type and size of meter to be installed and location of same. If flow requirements increase or decrease subsequent to installation and a larger or smaller meter is requested by the Customer, the cost of installing such meter shall be paid by the Customer.</p> <p>(d) Service to any one Customer shall be furnished through a single metering installation. Except in the case of a residential duplex structure, where a building is occupied by more than one tenant, the building shall be served by one meter. The Customer may rearrange piping at his own expense so as to separate the units and meter his tenants as he chooses, then divide the bill accordingly.</p> <p>(e) The meters and meter installations furnished by the Company shall remain its property, and the owners of premises wherein they are located shall be held responsible for their safekeeping. For failure to protect same against damage, the Company may refuse to supply water until the Company is paid for such damages. The amount of the charge shall be the cost of the necessary replacement parts and the labor cost necessary to make the repair.</p> <p>* Indicates new rate or text + Indicates change</p>

<b>RULES AND REGULATIONS GOVERNING RENDERING OF WATER SERVICE</b>
<p>Rule 14 Extension of Water Mains</p> <p>3. This rule shall govern the extension of water mains by the Company in areas where water mains do not exist at the date of issue of this rule. The Company will extend its water mains within dedicated or recorded easement within its certificated area to serve new customers in accordance with the following terms and conditions:</p> <p>(A) Upon receipt of a written application for service in compliance with Rule 4, the Company will provide the Applicant(s) an itemized estimate of the cost of the proposed extension. Said estimate shall include the cost of all labor and materials required including valves, fire hydrants, booster stations, pressure regulating stations and other appurtenances, reconstruction of existing mains (inecessary), production, treatment and storage system expansion or new construction, engineering, supervision and construction inspection, permits and bookkeeping.</p> <p>(B) Applicant(s) shall enter into a contract with the Company for the installation of said extension and shall tender to the Company a contribution in aid of construction equal to the amount determined in 3(A). At the Company's sole option, Applicant(s) may be permitted to install all or part of said extension with an equivalent reduction being made in the required contribution in aid of construction.</p> <p>(C) If as a result of reasonably unforeseen circumstances the actual cost of the extension exceeds the estimated cost of the extension, the Applicant(s) shall pay the added cost within 30 days of being billed for same by Company.</p> <p>(D) The cost to an applicant connecting to a water main that was constructed and funded in accordance with this rule shall be as follows:</p> <p>(1) For single family residential Applicants that are applying for service in a platted subdivision, the Company shall divide the actual cost of the extension by the number of lots abutting said extension to determine the per lot extension cost. When counting lots, corner lots which abut existing mains shall be excluded.</p> <p>(2) For single family residential Applicants that are applying for service in areas that are unplatted in subdivision lots, the Applicants' cost shall be equal to the total cost of the extension divided by the total length of the extension in feet times 100 feet.</p> <p>(3) For multi-family residential, commercial or industrial Applicant(s) the cost will be equal to the amount calculated for a single family residence in paragraphs (D)(1) or (D)(2) above multiplied times a water usage factor. The water usage factor shall be</p> <p>* Indicates new rate or text + Indicates change</p>

Missouri –American Water Company  
NAME OF ISSUING CORPORATION

FOR STONE, CHRISTIAN & TANEY COUNTIES, MISSOURI  
COMMUNITY, TOWN, OR CITY

<b>Rules Governing Rendering of Sewer Service</b>	
<b>Rule 1 DEFINITIONS</b>	
(a) The "COMPANY" is <u>Missouri-American Water Company</u> , acting through its officers, managers, or other duly authorized employees or agents.	+
(b) The "CUSTOMER" is any person, individual, partnership, association, corporation or governmental body which has contracted with the Company for sewer service or is receiving service from the Company, or whose facilities are connected for utilizing such service.	
(c) The word "UNIT" shall be used herein to define the standard user or property served and shall include mobile homes or any building, residential, commercial, or industrial, owned or leased and each unit of any multi-unit structure.	
(d) A "COLLECTING SEWER" is a pipeline, including force lines, gravity sewers, interceptors, laterals, trunk sewers, manholes, lamp holes, and necessary appurtenances, including service wyes and saddles, or pressure pump units that are owned and maintained by the Company, located on public property or on private easements, and used to transport sewage waste from the Customer's service connection to the point of disposal.	+
(e) A "CUSTOMER'S SERVICE SEWER" is a pipe with appurtenances installed, owned and maintained by the Customer, used to conduct sewage from the Customer's premises to the collecting sewer, including pressure pump units and sewage tanks owned by the Customer, and excluding service wyes or saddles, and pressure pump units that are owned by the Company. For Customers connected to a pressure collecting sewer and utilizing a pump unit, the portion of the Service Sewer between the pump unit and the collecting sewer is a pressurized portion of the Service Sewer. In addition to other parts and fittings this shall include a stop cock accessible to the Company for turn-off of sewerage flow and a check valve to prevent backflow of waste-water under pressure in the pressure collecting sewer. The Service Sewer is constructed, owned and maintained by the Customer.	+ + + + + + + +

<b>Rules Governing Rendering of Sewer Service</b>	
Rule 1 DEFINITIONS (Continued)	
<p>(n) "EFFLUENT PUMP UNIT" or "PRESSURE PUMP UNIT" – a self contained facility consisting generally of a tank and an electric pump, which separates solid from liquid waste, retaining the solid waste in the tank, and pumping the liquid waste under pressure to collecting sewer pipelines. The device also contains level controls for interim storage of liquid waste in the tank and intermittent pump operation as a function of liquid level with appropriate malfunction alarms, pressure controls and check valves to insure cooperative operation with similar units.</p> <p>(o) "GRINDER PUMP UNIT" or "PUMP UNIT" – a self contained facility consisting generally of a small tank, and an electric pump that is capable of pumping liquid waste with contained solids to a pressure collecting sewer for transportation of liquid waste with solids to a treatment facility.</p> <p>(p) "PRESSURE COLLECTING SEWER" – a collecting sewer pipeline owned and maintained by the company, including wyes, tees, and saddles, operated under pressure from pump units connected to the pipeline, located within easements, used to transport wastewater under pressure to a treatment facility. A Pressure Collecting Sewer is sometimes referred to generically as a collecting sewer.</p> <p>(q) "TANK" – a watertight vessel which holds wastewater from the customer's premises, and in which an electric and pump associated electrical controls and connections may be installed if necessary, and provides access from ground level to the internal parts and for other maintenance.</p> <p>(r) A "SADDLE" is a fitting that connects the Customer's Service Sewer to the collecting sewer whether it be a gravity collecting sewer or a pressure collecting sewer; the saddle clamps around the collecting sewer pipeline into which pipeline a hole is cut, and the Service Sewer is connected to the Saddle thereby connecting it to the collecting sewer.</p> <p>(s) A "WYE" or "WYE BRANCH" or "Y" or "Y BRANCH" is a three-way, one-piece pipe fitting in the shape of the letter "y" that is a part of the collecting sewer pipeline, and to which the Customer's service sewer is connected.</p> <p>* Indicates new rate or text + Indicates change</p>

<b>Rules Governing Rendering of Sewer Service</b>	
<b>Rule 4 APPLICATIONS FOR SEWER SERVICE</b>	
<p>(a) A written application for service, signed by the Customer and accompanied by the appropriate fees and other information required by these rules and regulations, must be received from each Customer before service is provided to any premises. Said application must state the name of the owner of said premises and, in the case of a commercial or industrial Customer, must also state the quantity and strength of effluent to be discharged from said premises into Company's sewer system. Every Customer, upon signing an application for any service rendered by the Company or upon taking of service, shall be considered to have expressed consent to the Company's rates, rules and regulations. The Company shall have the right to refuse service for failure to comply with the rules and regulations herein, or if the customer owes a past due bill not in dispute for sewer service at any location within the Company's area. In any case, where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract specifying a reasonable period of time for the Company to provide the service. The Company shall notify the owner of property served and what the Company's billing rules are.</p> <p>(b) A commercial or industrial Customer shall, upon request of the Company, present in writing to the Company a list of the devices which are to be attached to the Company's lines, giving the location of any buildings. The Company will then advise the Customer of the form and the character of the waste water collection facilities available.</p>

**Rules Governing Rendering of  
Sewer Service**

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER (Continued)

- (m) In the Company's Stonebridge Service District operation, the Company will provide, install and maintain pressure pump units where necessary, including electric power.

In all other operations, any customer proposed to be connected and to be discharging less than 1,200 gallons per day domestic sewage, and where a tank or pressure pump unit is necessary for discharge of sewage into the Company's collecting sewer, or as a part of the treatment process, or both, shall install at his own expense within the lot, one pump unit of suitable capacity. All components utilized in a pump unit must be either purchased from the Company or meet its specifications which shall be on file at the Company's office, and approved by the Company prior to installation. Installation costs of the pump unit, electrical wiring and components and service sewers between the dwelling and the pump unit and Company's collecting sewers shall be the responsibility of the Customer. Electricity costs for pump operation shall be the responsibility of the Customer. Customers discharging greater than 1,200 gallons per day, upon applying for service with the Company, must enter into an agreement with the Company with regard to operation of a pump unit that is of suitable capacity for the customer and that will be compatible with the Company's operation of its collecting sewer system and treatment facility.

- (n) The Company will locate the point to which the service connection to the pressure collecting sewer will be made, and the Customer shall furnish materials for the connection. All taps to the pressure collecting sewer shall be done by the Company. One connection shall not service more than one property.
- (o) A stop cock shall be placed on the service sewer near the service connection. Said stop cock shall include a provision for locking. The stop cock will be furnished, owned and maintained by the Customer for use by the Customer for maintenance or by the Company.
- (p) In addition to other methods outlined within these Rules for discontinuance of sewer service, sewer service may be turned-off by the Company by locking the stop cock in the closed position. Service shall not be resumed again except upon payment of all delinquent charges, plus any applicable approved service charge to cover the costs of resuming service, in accordance with these Rules.

Rule 9 BILLS FOR SERVICE (continued)	
<p>(g) The Company shall have the right to render bills monthly, and such bills shall be due and payable on the due date indicated on the bill. The Company shall have the right to charge Customers on a monthly basis in arrears when the sewer charges are based on water usage.</p> <p>(h) Neither the Company nor the Customer will be bound by bills rendered under mistake of fact as to the quantity of service rendered or as a result of clerical error.</p> <p>(i) All bills for sewer service become delinquent after the due date stated on the bill. Service may be discontinued thirty (30) days after written notice by mail from the Company. The Company shall have the right to charge to the Customer's account reasonable costs and fees incurred in collecting the delinquent amount.</p> <p>(j) When the bills are rendered for a period of less than a complete billing period due to the connection or termination of service, the billing shall be for the proportionate part of the monthly charge, or where water usage is the basis for the charge, at the appropriate rate for water used, or a proportionate part of the residential rate, whichever is applicable. Customers terminating with less than one month's service shall pay not less than the monthly minimum.</p> <p>(k) If a Customer is a tenant, the Company may require the owner of the property to be ultimately responsible for payment of bills for service, provided the Company has made reasonable and timely efforts to collect bills due from the Customer. All notices of delinquent bills or disconnection shall also be sent to the owner of the property.</p>

- h) adequate service. Such determination as to size and type of pipe, lift stations and appurtenances shall be left solely to the judgment of the Company. If the Company desires pipe or lift station sizing larger than reasonably required to provide service to the lots abutting said extension, the additional cost due to larger sizing shall be borne by the Company.
- i) In the event Applicant(s) desire to construct all or part of the extension, and the Company agrees, the following terms and conditions shall apply.
  - 1. Applicant shall enter into a contract with the Company which provides that the Applicant construct said collecting sewers and/or other facilities to meet the requirements of all governmental agencies with proper authority, that all facilities constructed comply with the Company's rules and construction standards, that no construction shall commence until all necessary permits have been granted by all regulatory authorities, that all construction will be completed in accordance with a schedule agreed to between Company and Applicant.
  - 2. In the event of Applicant's default, Company shall have the right to complete or correct incomplete or faulty constructions, such costs to be borne by Applicant.
  - 3. Applicant's choice of design engineer and construction contractor is subject to approval by the Company.
  - 4. Plans and specifications for said extension shall be provided to the Company for approval prior to construction.
  - 5. Applicant shall provide a detailed cost accounting of the actual cost of design and construction within 30 days of the completion of said extension.
  - 6. Applicant shall contribute said extension to the Company, free and clear of any and all encumbrances, mechanics liens etc.
  - 7. Applicant shall contribute to the Company the Company's cost of construction inspection.
  - 8. The Company or its representative shall have the right to inspect, test and approve the extension prior to connecting it to the Company's collecting sewers.
  - 9. Connection of the extension to existing Company sewers shall be made by the Company of its authorized representative.
  - 10. The Company shall have the right to refuse ownership and responsibility for said extension until the Applicant(s) have complied fully with this Rule.

BILL NO. 8

ORDINANCE NO. 2011-08

AN ORDINANCE GRANTING THE FRANCHISE FOR THE MISSOURI-AMERICAN WATER COMPANY CONTAINING THE RIGHT TO USE, FOR A PERIOD OF TWENTY YEARS, THE PUBLIC RIGHTS-OF-WAY, THE STREETS, AVENUES, ALLEYS, PARKS AND OTHER PUBLIC PLACES FOR THE VILLAGE OF SADDLEBROOKE, MISSOURI, FOR THE PURPOSE OF INSTALLING, EXTENDING, MAINTAINING AND OPERATING WATER AND WASTEWATER SYSTEMS; REGULATING THE RIGHT TO USE AND EXCAVATE IN SAID STREETS AND OTHER PUBLIC PLACES, PROVIDING THAT THE COMPANY SHALL HOLD SAID VILLAGE HARMLESS FROM ALL DAMAGES FROM NEGLIGENCE IN THE CONSTRUCTION, MAINTENANCE AND OPERATION OF SAID WATER AND WASTEWATER SYSTEMS AND PROVIDING FOR THE ACCEPTANCE OF THE FRANCHISE BY SAID COMPANY.

BE IT ORDAINED BY THE VILLAGE BOARD OF TRUSTEES OF THE VILLAGE OF SADDLEBROOKE, MISSOURI AS FOLLOWS:

**SECTION 1.** In recognition of the benefits to the Village of Saddlebrooke, (hereinafter sometimes called the "Village"), and to its citizens to be derived from the continuation, extension and operation of the water and wastewater systems, including the distribution mains, pipe, hydrants, appurtenances and facilities of the water system and pipe, manholes, appurtenances and facilities of the wastewater system (collectively "Water and Wastewater Systems") within the Village, now owned and operated or to be owned and operated by the Missouri-American Water Company successors, legal representatives, and assigns (hereinafter sometimes called the "Company"), and as an inducement to said Company to carry out extension of said Water and Wastewater Systems, and to accept the terms and provisions of this franchise, the Village hereby grants its franchise to the Company including the rights to use the public rights-of-way, streets, avenues, alleys, parks and other public places within the Village as now bounded, and within any future extensions of its limits, for the purpose of installing, extending, maintaining or operating the Water and Wastewater Systems for a term or period of twenty (20) years after this Ordinance is passed and approved.

**SECTION 2.** Village and Company may agree in writing to extend the term of this franchise on substantially the same terms and conditions as set forth herein for additional 5 year extensions. Upon final termination or expiration of this Ordinance, Company shall be entitled to retrieve all materials, documents, programs, and products bearing, reflecting, or embodying the intellectual property of the Company. Notwithstanding the foregoing, at its discretion, Company may abandon underground main, pipe, facilities and equipment upon expiration of this Ordinance.

**SECTION 3.** No person or corporation shall be permitted, and the Village shall not grant to any person or corporation, the right to install, extend or maintain any water, gas, electric, telephone, cable, sewer or other systems, or any pipe, mains, conduits, wires or appurtenances, so as to injure, damage or interfere with the Water and Wastewater Systems of the Company, nor shall the Village vacate away any rights of way containing any part of the Company's Water and Wastewater Systems without the Company's prior approval, nor shall any person or corporation be permitted or granted the right to interfere in any way with any of the rights granted hereunder to the Company to install, extend, maintain or operate its Water and Wastewater Systems or to use the public rights-of-way streets, avenues, alleys, parks and other public places as provided herein.

**SECTION 4.** Due to the nature of the Water and Wastewater Systems and the location of the Company's service areas, this franchise grant shall be deemed exclusive.

**SECTION 5.** There shall be no unreasonable or unnecessary obstruction of the public rights-of-way, streets, avenues, alleys, parks and other public places of said Village by said Company in constructing any of the work herein provided for, and in placing, taking up and repairing any part of the Company's Water and Wastewater Systems requisite for the service of the Water and Wastewater Systems, and the said Company after using said public rights-of-way, streets, avenues, alleys, parks and other public places, shall restore them within six months as nearly as practicable to their former condition, and shall hold the Village harmless for any and all damages arising from negligence of said Company in constructing, extending, or maintaining the Water and Wastewater Systems. For any failure on the part of the Company to comply with all provisions of this Section, the Village shall provide written notice to said Company of the existence of said failure, and Company shall attempt to remedy the failure in a timely manner. This Section shall not affect or repeal any ordinance of the Village that contains any reasonable regulations for the control and maintenance of the public rights-of-way, streets, avenues, alleys, parks and other public places in the Village shall be effective against the Company so far as such ordinances are reasonably applicable to the condition and business of the Company, and charges to the Company for any use of public rights-of-way shall be limited to reasonable administrative permit issuance codes.

**SECTION 6.** In consideration of the right to use the public rights-of-way, streets, avenues, alleys, parks and other public places as herein provided, the Company shall supply consumers within the limits of the Village under the applicable schedule of water or wastewater rates as now or hereafter approved by the Public Service Commission of Missouri.

**SECTION 7.** Relocation of Water and Wastewater Systems. If, at any time, the Village, deeming it advisable to improve any of its streets, avenues, alleys, roads or public property, by grading or re-grading, planking or paving same, or altering, changing, repairing or re-improving same, and the Company's Water and Wastewater Systems are (1) located in right-of-way affected by the Village's proposed improvement and (2) directly and physically interfere with the Village's proposed improvements, the Company, upon 60 day advanced written notice by the Village, shall, at its own expense, so move such part of its Water and Wastewater Systems as may be necessary to conform to such new grades as may be established, or place such part of its Water and Wastewater Systems in such location or position as shall cause the least interference with any improvements or work thereon as contemplated by the Village. The Village shall provide another place in right-of-way for the Company to relocate its Water and Wastewater Systems or, alternatively, the Village will obtain appropriate easements

to facilitate relocation. Any relocation shall be done within a reasonable time of the Company receiving notice consistent with any limitations the Company may have for operation of the Water and Wastewater Systems. The Company shall only be responsible to pay its costs of removal or relocation in the event that its Water and Wastewater Systems directly and physically interfere with the Village's improvement plans. For the purposes of this paragraph, "direct and physical interference" means the Company's Water and Wastewater Systems will come into physical contact with or will strike against the City's improvements, but does not include constructability issues or interference with proposed construction methods. Moreover, Company shall not be responsible for relocation or removal costs when the Village initiates a public improvement project but later abandons the project mid-course, in which case the Village shall reimburse the Company for any costs incurred by the Company in connection with the Village's project.

**SECTION 8.** The Village shall, so far as possible, and within its corporate powers, adopt and enforce ordinances that will protect the Company in the safe and unmolested exercise of its franchise and rights hereunder, and against fraud and imposition, and against injury to the Company's property, and waste of water by consumers. The Village shall not enact any ordinances inconsistent with the rights and privileges herein granted. The Company may make and enforce, as part of the conditions upon which it may supply water or wastewater services to consumers, all necessary and reasonable rules and regulations governing the consumption of water, tapping of mains and the maintenance and operation of its Water and Wastewater Systems, not inconsistent with this Ordinance, it being understood that such rules and regulations must be approved by the Public Service Commission before they become effective.

**SECTION 9.** Emergency Work. In the event of any emergency in which any part of the Company's Water and Wastewater Systems located in or under any street, breaks, are damaged, or if the Company's construction area is otherwise in such a condition as to immediately endanger the property, life, health or safety of any individual, the Company shall immediately take proper emergency measures to repair its Water and Wastewater Systems, to cure or remedy the dangerous conditions for the protection of the property, life, health or safety of individuals without first applying for and obtaining permission from the Village

**SECTION 10.** Street Vacations. The Village may have occasion to vacate certain streets, public ways or areas that have some part of the Company's Water and Wastewater Systems located thereon. The Village agrees to exert reasonable good faith efforts to reserve an easement for the Company's Water and Wastewater Systems when a street, public way or area is vacated. If it is not feasible for the Village to reserve an easement for the Company's facilities, the proponents of the vacation shall be required (by the Village) as part of land use or other permitting approvals, to reimburse the Company all costs to relocate said facilities. The provisions of this Section shall survive the expiration, revocation, or termination of this franchise agreement.

**SECTION 11.** Gross Receipts Tax. By the fifteenth (15th) day of the month following each month of the year, the Company shall submit to the Village a report of gross receipts from the sale of water within the limits of the Village for the immediately preceding month, along with a check for five percent (5%) of the gross amount. This Section is subject to the Company's tariffs on billing of gross receipts taxes. The Village may modify or terminate this tax upon 120 days notice to the Company, subject to any requirements for the Village to pass a new ordinance to make such changes effective.

**SECTION 12.** Septic Tank Design. Upon request, the Company will assist the Architecture Committee with developing an approved septic tank design on behalf of the Village Board of Trustees.

**SECTION 13.** Antenna, Signage and Fences. The Village grants Company permission: 1) to install or lease space for antenna and related equipment on Company's facilities for wireless communication or other uses and the right to retain any payments for Company's sole use and benefit; 2) to place its name on any elevated tank and install security signage on its property; and 3) to install fencing around its facilities for security reasons.

**SECTION 14.** After the passage and approval of this Ordinance, the Village shall supply to the Company a certified copy of this Ordinance. Thereupon within one hundred (100) days after the delivery of such certified copy of the Ordinance, the Company, by proper order and resolution of its Board of Directors, shall accept the terms and provisions of this Ordinance and shall sign and deliver an appropriate deed of acceptance thereof binding itself to carry out the terms and provisions of the franchise as herein embodied, which deed of acceptance shall be duly signed by its President or Vice-President, sealed with its corporate seal and attested by the signature of its Secretary or Assistant Secretary, and the original thereof be delivered to Chairman of the Board of Trustees of the Village.

The term of twenty (20) years herein provided for shall commence upon the date this Ordinance is signed and approved by the Chairman of the Board of Trustees of the Village.

**SECTION 15.** Modification. The Village and the Company hereby reserve the right to alter, amend or modify the terms and conditions of this franchise upon written agreement of both parties to such alteration, amendment or modification.

**SECTION 16.** Neither acceptance of nor compliance with the provision of this Ordinance, nor exercise of any right granted hereby, shall in any way impair or affect, or constitute or be construed as a relinquishment or waiver of, any right, permission or authority which the Company, its successors or assigns, may have independently of this Ordinance. Nor shall any use by the Company, its successors or assigns, of public property or places in the Village, as authorized by this Ordinance, or service rendered by said Company, its successors or assigns, in the Village, be treated as use solely of the rights, permission and authority provided for by this Ordinance or as service referable solely to this Ordinance or to any obligation of service consequent upon acceptance thereof or as in any ways indicating non-use of, or non-compliance with any obligation incident to, any right, permission or authority vested in the Company, its successor or assigns, independently of this Ordinance; and the acceptance provided for in Section 14 of this Ordinance, and each and every compliance with the provisions of this Ordinance or with any obligation arising from acceptance thereof, shall be subject to, and conditioned by, the provisions of this Section 16, with the same force and effect as though each of the provisions of this Section were expressly incorporated in such acceptance and expressly declared by the acceptor, its successor or assign, at and prior to the time of such compliance by it, as conditions of such compliance.

**SECTION 17.** All Ordinances or parts or Ordinances, insofar as they conflict with this Ordinance, are hereby repealed.

**SECTION 18.** If any provisions of this Ordinance, or the application of such provision to particular circumstances, shall be held invalid, the remainder of this Ordinance, or the application of such provision to circumstances other than those as to which it is held invalid, shall not be affected thereby.

**SECTION 19.** This Ordinance shall take effect as, from and after its passage by a majority vote of the Board of Trustees, the yeas and nays entered upon the journal, and approval by the Chairman of the Board of Trustees; provided, however, that the franchise granted hereby shall not be effective, and this Ordinance shall become null and void, if the terms of the franchise agreement are not accepted by the Company as provided in Section 14.

**SECTION 20.** Assignment. This franchise agreement may not be assigned or transferred without the written approval of the Village, except the Company may freely assign this franchise agreement in whole or in part to a parent, subsidiary, or affiliated corporation or as part of any corporate financing, reorganization or refinancing and provided that the Village's approval shall not be unreasonably withheld. In the case of transfer or assignment as security by mortgage or other security instrument in whole or in part to secure indebtedness, such consent shall not be required unless and until the secured party elects to realize upon the collateral. The Company shall provide prompt, written notice to the Village of any such assignment.

PASSED BY THE BOARD OF TRUSTEES THIS 7<sup>th</sup> DAY OF December, 2011.

APPROVED BY THE CHAIRMAN THIS 8<sup>th</sup> DAY OF December, 2011.
