Case No. EX-2010-0169

Dear Mr. Reed;

This job working on the wind farm has been one of the best jobs I have had. It has helped me and my family by providing employment for me close to home. I enjoy the ability to be home with my family in the evening spending quality time with them, working in rural Northwest Missouri has helped me achieve that. It also gives my family a satisfying feeling knowing we are helping the environment by putting up wind mills to generate renewable energy. I can see the many jobs that have been created by these farms. It is nice to know that when companies come in to build a farm it is putting money back into our local economy to help sustain the rural farming communities. The most important thing to me is being able to provide a good living and be with my family and building these rural wind farms has served us well.

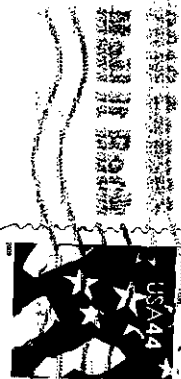

Sincerely,

Wayland Walker
