Subject: Re: PON KETLCNGLOC-2W01, REJECTED
To: Monica Ruedisueli<Monica.Ruedisueli@CenturyTel.com>

Olga and Monica: I have been asked by Socket to re-issue this local order for Licking MO (along with Canton and Monroe City) as one way directional orders. I will have to cancel this PON and re-design the orders as reciprocals.

The approved forecast for Socket (currently) shows these local groups as 1 WAY. Evidently, the forecast with 2 Way traffic has not been approved at this time.

I will send this SUPP 1 for the 2way group to access.orders, along with the new recip. ASRs for the 1 way groups.

Thanks!

Linda

Several fields on incorrect when checked against ASOG.

Are you using VER 28 of the ASR? I can't find the ACTI field on your copy.

ACTI: is a required field

LTP: "C" is for trunks, tandem swx transports and these go to the EO, this probably should be changed

TSC: needs to be populated. "N" is fine for new.

TRFTYP:LT is for Local IntraLata Toll....is this a toll group?

CFA: Your remarks say to install on new facility established on 351585 and you list the CFA as 606/T3Z but that is not the facility established on 351585.

That facility is 604/T3Z.

HBAN: required. "E" is fine or populate the facility BAN.

TQ COMMON

TEST TN: required

TTEST RESP: required

TK SEQ:required

TK SIG:required (these 2 might not be lined up correctly but I don't see TK SEQ on your ASR at all)

OT:prohibited(?)

CIP: I think this is prohibited

Also per Olga you cannot order a 2way group per the approved forecast of 4/16/04. The forecast for 6/04/04 was not approved. You can reach her at 636.332.7349 with questions about that and refer to the ASOG for the other things needed. Thanks.
