Good morning!

FYI - Slight modifications to the proposed CSPP tariff sheets (attached). Added a new line for Small Primary Service (which should be priced slightly different than Large General) in both the tariff and the compliance rates sheet and changed the references for the rates. The revised workpaper is also attached.

Thanks, Diana

**Subject:** EDE Rate Case - Compliance Tariff Sheets for Review

Good morning, all. Happy Friday! Please find attached Liberty's proposed compliance tariff package. We will

file the tariff sheets in the rate case and submit them as a tariff filing this coming Monday, with a requested effective date of June 1.

If you have an opportunity to review the sheets by Monday and find matters in need of correction, please send them my way before 4:00 pm on Monday, and we will get the changes incorporated before initial submission. Otherwise, we will, of course, continue to work with the parties after making the initial submission, and we can file substitute tariff sheets as needed.

For any suggested corrections or other edits, please use the attached PDF, hand-write in your edits, and then send back (or call or email to discuss). Please do not do further redlining, as I am afraid we will lose track of what needs to be done. If you would like to have a call to discuss what has changed since the original rate case filing or otherwise, please just reach out. The redlining shows all changes from the tariff sheets currently in effect.

Thanks, Diana
