Expansion of its Existing Certificated Area)

**ORDER GRANTING CERTIFICATE
OF CONVENIENCE AND NECESSITY**

Issue Date: September 16, 2020

Effective Date: October 16, 2020

Procedural History

On July 13, 2020, Spire Missouri, Inc. (Spire), filed the above-referenced application. The application seeks, among other things, permission and approval and a certificate of convenience and necessity (“CCN”) to construct, install, own, operate, maintain, and otherwise control and manage a natural gas distribution system to provide gas service in Cass County, Missouri, as a further expansion of Spire’s existing certificated area.

The application describes two projects Spire wishes to complete. The first project will extend service to industrial customers in an industrial park. The second project will extend service to commercial customers, with the potential to serve residential customers. The application further requests a waiver of the Commission’s 60-day notice rule.¹

¹ Commission Rule 20 CSR 4240-4.017(1).

The Staff of the Commission filed its Recommendation on August 24, 2020. Staff recommends that the Commission grant the certificate, subject to two conditions. The conditions are that the Commission should:

- reserve all rate making determinations regarding the revenue requirement impact of this service area extension request until Spire's next general rate making proceeding; and
- require Spire to file an updated tariff sheet incorporating the requested Sections for Cass County.

No party has responded to Staff's Recommendation.

Decision

Spire is a gas corporation and a public utility subject to Commission jurisdiction.² The Commission may grant a gas corporation a certificate of convenience and necessity to operate after determining that the construction and operation are either "necessary or convenient for the public service."³ The Commission has stated five criteria that it will use to make this determination:

- 1) There must be a need for the service;
- 2) The applicant must be qualified to provide the proposed service;
- 3) The applicant must have the financial ability to provide the service;
- 4) The applicant's proposal must be economically feasible; and
- 5) The service must promote the public interest.⁴

² Section 386.020(18), (43) RSMo 2016.

³ Section 393.170, RSMo. 2016.

⁴ *In re Tartan Energy Company*, 3 Mo. P.S.C. 173, 177 (1994).

Based on the verified pleadings, the Commission finds the application for a certificate of convenience and necessity to provide gas service meets the above listed criteria.⁵ The application will be granted.

Commission Rule 20 CSR 4240-4.017(1)(D) states that a waiver may be granted for good cause. Good cause exists in this case. Spire has had no communication with the office of the Commission within the prior 150 days regarding any substantive issue likely to be in this case, other than those pleadings filed for record. Accordingly, for good cause shown, the Commission waives the 60-day notice requirement of Commission Rule 20 CSR 4240-4.017(1).

THE COMMISSION ORDERS THAT:

1. Commission Rule 20 CSR 4240-4.017(1) is waived.
2. Spire is granted permission, approval, and a certificate of convenience and necessity to construct, install, own, operate, control, manage, and maintain gas plant as more particularly described in its application and Staff Recommendation.
3. The certificate of convenience and necessity is subject to the condition that the Commission will reserve all ratemaking determinations regarding the revenue impact of this service area extension request until Spire's next general ratemaking proceeding.
4. Spire shall file an updated tariff sheet incorporating the requested sections for Cass County.

⁵ The requirement for a hearing is met when the opportunity for hearing is provided and no proper party requests the opportunity to present evidence. No party requested a hearing in this matter; thus, no hearing is necessary. *State ex rel. Deffenderfer Enterprises, Inc. v. Public Service Comm'n of the State of Missouri*, 776 S.W.2d 494 (Mo. App. W.D. 1989).

5. This order shall become effective on October 16, 2020.
