CASE NO.: ER-2012-0174

DIRECT TESTIMONY

OF

JIMMY D. ALBERTS

ON BEHALF OF

KANSAS CITY POWER & LIGHT COMPANY

Kansas City, Missouri February 2012

> Date 10-29-12 Reporter XX File No. ER. 2012-0171

DIRECT TESTIMONY

OF

JIMMY D. ALBERTS

Case No. ER-2012-0174

1	Q:	Please state your name and business address.
2	A:	My name is Jimmy D. Alberts. My business address is 1200 Main Street, Kansas City
3		Missouri 64105.
4	Q:	By whom and in what capacity are you employed?
5	A:	I am employed by Kansas City Power & Light Company ("KCP&L" or the "Company")
6		as Vice President - Customer Service.
7	Q:	What are your responsibilities?
8	A:	My primary responsibilities include managing the Customer Service function at KCP&L
9		and KCP&L Greater Missouri Operations Company ("GMO"). This includes the call
10		center, meter reading and field services, billing, collections, customer relations, training,
11		revenue protection, revenue assurance, and quality assurance/performance management.
12	Q:	Please describe your education, experience, and employment history.
13	A:	I have a bachelor's degree in Business Administration from Minnesota State University at
14		Mankato, and an MBA from Drake University in Des Moines, Iowa. I have 25 years of
15		experience in the utility industry in various management roles. Those roles include
16		Operations Management, Quality Assurance, and Six Sigma Deployment Leader. I was

Vice President of Central Services at Aquila from June 23, 2005 to July 13, 2008. On

July 14, 2008, I moved to my current role as Vice President of Customer Service at

KCP&L.

1	Λ·	Have	VAII	previously	testified	in	9	proceeding	at	the	Missouri	Public	Service
1	Q:	паче	you	previously	testiffea	Ш	а	proceeding	aı	ше	MISSOULI	rublic	Service

- 2 Commission ("MPSC" or "Commission") or before any other utility regulatory
- 3 agency?
- 4 A: Yes. I offered testimony in GMO's rate cases, Case Nos. ER-2009-0090 and ER-2010-
- 5 0356, and in KCP&L's rate cases, Case Nos. ER-2009-0089 and ER-2010-0355.
- 6 Q: What is the purpose of your testimony?
- 7 A: KCP&L is recommending continuation and expansion of the Economic Relief Pilot
- 8 Program ("ERPP" or the "program") as set forth below, with 100% rate recovery allowed
- 9 for all associated program costs. We recommend ending pilot status of this program and
- have reflected this in our proposed tariffs.
- 11 Q: Please provide an overview of the ERPP.
- 12 A: The ERPP offered by the Company provides an opportunity to relieve financial hardship
- experienced by some of our customers. ERPP delivers up to a fifty (50) dollar per month
- "fixed credit" to qualifying low-income customers, improving energy affordability. The
- program has been designed so that the Company neither profits from nor incurs losses as
- a result of offering this program. Without the recommended continuation and expansion
- of the program, the program is expected to end September 1, 2012.
- 18 Q: Was the proposal to continue the ERPP offered before?
- 19 A: Yes, in Case No. ER-2010-0355 the Company proposed continuation of the program and
- recovery of all associated program costs through our retail rates.

1	Q:	What was the position of MPSC Staff in that case?
2	A:	Staff witness Carol Gay Fred addressed the ERPP in the Staff Cost of Service Report and
3		in subsequent Rebuttal Testimony. Witness Fred offered the following recommendations
4		in the Cost of Service Report, starting on page 139, line 3:
5 6 7 8 9 10 11 12 13		 Acquire an independent third party evaluator for the program to track all aspects of the program for weaknesses, strengths and improvement opportunities. Work more extensively with Salvation Army to ensure capacity enrollment of ERPP. Improve on education and providing awareness of ERPP with other Energy Assistance Agencies of the availability of ERPP Provide [The Salvation Army] field staff availability to AgencyLink Continue to conduct as many as feasible Connections campaign Energy Resource Fairs on an annual basis.¹
15	Q:	What was the result of that case?
16	A:	This issue was settled in the Non-Unanimous Stipulation and Agreement as to
17		Miscellaneous Issues approved by the Commission in its Report and Order issued on
18		April 12, 2011.
19	Q:	Since that time has anything been done to address the recommendations suggested
20		by Staff?
21	A:	We have acquired a third party evaluator, True North Market Insights, LLC, 1310 Wagon
22		Wheel Road, Lawrence, KS 66049, to evaluate the program. This evaluator will survey
23		200 randomly selected customers of the program to address weaknesses, strengths, and
24		any suggestions from the customers for improving the program.

We also are working on a daily basis with The Salvation Army, which facilitates

the program, to keep it informed of how many applications we have enrolled or labeled as

being ineligible. If we notice the program has a wide range of openings in one territory

25

26

27

3

or another, the Company helps facilitate enrollments through direct contact with agencies, which drive awareness, and through outreach opportunities.

The Salvation Army has access to Agency Link, which is a web based tool designed exclusively for use by the social service agencies that assist our customers. It provides 24-hour online access to KCP&L customer accounts. It was created to assist such agencies in determining energy assistance eligibility for our customers. The agencies only need the customer's KCP&L account number to access the information. Once in this database, the agencies are able to view and print the following account detail: customer account balance, bill history, payment history, payment arrangement history, and disconnected notices. The Salvation Army utilizes this technology to confirm a customer's eligibility for the program. If an applicant is past due, The Salvation Army works with the customer to bring his or her account current or places an energy assistance grant on the customer's account. The customer's application can then be submitted to the Company for processing.

Through active participation in monthly collaborative meetings that include agency representation, such as: 1) United Way of Greater Kansas City; 2) The Salvation Army; 3) Catholic Charities of Kansas City-St. Joseph, Inc.; 4) United Services Community Action Agency; 5) City Union Mission; 6) Bishop Sullivan Center; 7) Metropolitan Lutheran Ministry; 8) Phoenix Family Housing Corporation; 9) Community Assistance Council; and 10) Shepherd's Center Central, we are able to educate the agencies about ERPP, as well as provide updates on available openings in the program.

¹ See Staff Report Revenue Requirement Cost of Service, p. 139, ll. 3-18, Nov. 10, 2010.

In addition, the District Managers of our Company are informed about the program and are provided monthly status updates so they can interact on a more direct level with the aforementioned agencies, as well as with additional agencies within their respective territories. North Missouri district agencies include: 1) Community Services, Inc.; 2) Community Action Partnership of Greater St. Joseph; and 3) Green Hills Community Action Agency. East and Southeast Missouri district agencies include: 1) West Central Missouri Community Action Agency; and 2) Missouri Valley Community Action Agency.

In 2010, the Company hosted seven Connections Energy Resource Fairs. The

In 2010, the Company hosted seven Connections Energy Resource Fairs. The Connections Energy Resource Fairs were developed as an opportunity for KCP&L to provide information and education to customers in face-to-face venues. It allows the Company to answer questions and interact in a direct way, which includes accessing customer accounts and involving other community partners, such as United Way 2-1-1 and other key agencies. In 2011, there were 16 Connections Energy Resource Fairs at which customer education and information was distributed to low-income audiences. The Company plans to continue customer outreach in 2012 via the Connections platform.

17 Q: How many participants are enrolled in the program at this time?

- 18 A: As of January 6, 2012, 1,935 KCP&L or GMO customers participate in ERPP.

 19 Participants by territory are as follows:
- 20 987 in the KCP&L territory;

- 21 691 in the GMO Missouri Public Service ("MPS") territory; and
- 22 257 in the GMO St. Joseph Light & Power ("L&P") territory.

- 1 Q: How many dollars were credited to customers in 2010 and 2011 under this
- 2 program?
- 3 A: In 2010, the dollars credited to customers by territory are as follows:

KCP&L \$429,719 GMO MPS \$284,279 GMO L&P \$105,231 **2010 Total** \$819,229

4 In 2011, the dollars credited to customers by territory are as follows:

KCP&L \$602,257 GMO MPS \$422,924 GMO L&P \$174,453 **2011 Total** \$1,199,634

- 5 Q: Has KCP&L conducted an evaluation of the ERPP?
- 6 A: KCP&L's evaluation of the ERPP is currently in progress. KCP&L is working with True
- North Market Insights, LLC and our program partner, The Salvation Army, to complete
- 8 this evaluation. Results of this evaluation are scheduled to be completed by the end of
- 9 2nd quarter 2012 and will be contained in a report by the Company.
- 10 Q: How was the evaluation plan developed?
- 11 A: KCP&L brought the evaluation plan before the Customer Programs Advisory Group
- 12 ("CPAG") for collaborative discussion. The CPAG was created through the Stipulation
- and Agreement in the Comprehensive Energy Plan ("CEP"). After the CEP was
- 14 completed, the name of the collaborative was changed to DSM Advisory Group.
- Members include MPSC Staff, Office of Public Counsel, Missouri Department of Natural
- 16 Resources, the City of Kansas City, MO, Empire District Electric Company, and Praxair.
- 17 In December 2011, proposals were vetted with the group and an initial plan developed.
- 18 Considerable work was completed to design the evaluation components. Later, in
- January 2012, when the plan components were again shared with the advisory group,

changes to the sampling method were recommended. KCP&L has remained responsive to requested changes and although the change will somewhat delay the completion of the evaluation, the Company revised the evaluation plan to accommodate the new sampling methods.

5 Q: Please describe the evaluation.

A:

The phases of the evaluation will include: 1) one-on-one interviews with The Salvation Army employees who work with applicants; 2) postcard surveys mailed to 200 randomly selected participants in three waves; and, 3) additional internal KCP&L data reports that are analyzed and summarized into the findings of the evaluation. For example, some of the internal data will be: 1) How many customers have participated in multiple years of the program? 2) How many customers have requested to be taken off ERPP and why? 3) How many customers have been removed from the program because of the ongoing requirements and why? 4) In what other KCP&L programs are participants of the ERPP enrolled and was such enrollment before or after participation in the ERPP? 5) How many participants who have had a history of being in arrears or collection has this program helped?

17 Q: Is KCP&L asking participants their opinion of the ERPP?

18 A: Yes. Participants' opinions will be addressed in the evaluation by True North Market19 Insights, LLC.

20 Q: Has the Salvation Army expressed an opinion about the ERPP?

A: Cheryl A. Price, Social Services Program Director of The Salvation Army Divisional Headquarters, believes that the ERPP has been a tremendous boon to the elderly and fixed income households. With the \$50 savings each month, these households can

purchase needed food and prescription medications they might otherwise forgo due to budgetary constraints.

3 Q: What do you plan to do after the evaluation has been completed?

4 A: KCP&L will provide the complete evaluation to Staff and the other parties in the advisory group. The results of the evaluation will help guide the next steps for the program.

7 Q: If the evaluation is positive, what do you propose?

8 A: KCP&L proposes that the ERPP be continued and expanded with full recovery of all program costs and its name changed to reflect that it is no longer a pilot program. The program would be called Economic Relief Program (ERP).

Q: Please describe how the program would be expanded.

A:

The primary change to the program would be to expand the availability to approximately 5,000 customers per year on a combined company basis. We further propose that the distribution of this total be adjusted to reflect the need we have experienced through the pilot. Based on our data and input from The Salvation Army, we are proposing that the KCP&L jurisdiction be allotted approximately 50% of the total, or about 2,500 participants with the GMO jurisdictions receiving approximately 50% or 2,500 participants. This distribution will ensure a more complete response to the requests of our customers.

The proposed expansion would require a change to the current tariff, removing the pilot designation, including terms to describe the program funding process, and adding clarifying terms of the Availability section. See Schedule JDA-1 for details concerning the proposed tariff changes.

1	O :	Why does the Company propose	to increase partici	pation in the program?

A:

The Kansas City area shed about 12,600 jobs, or 1.3% of its payroll employment, from August 2010 to August 2011. Atlanta, Georgia was the only area during that timeframe that lost more jobs than did Kansas City. The Kansas City area ranked second worst among the 127 of 372 major U.S. cities where employment shrank over that timeframe. Tens of thousands of jobs have been lost since the recession began in December 2007. Economists have noted for months that Kansas City's job market has continued shrinking while recovery has begun in other areas. Frank Lenk, senior economist at the Mid-America Regional Council, predicts that the Kansas City economy will not return to the pre-recession employment level until 2014 – six full years after the recession began. What's more, there are a growing number of home foreclosures in Kansas City. In August 2011, home foreclosures were up 18% in Jackson County, which had the most foreclosure notices of any county in the state of Missouri.

There are a greater number of residential customers who are delinquent in their payments to the Company than there were before the recession.

The Company believes that expansion of the ERPP would assist many Missourians who are in great need of such assistance due to the downed economy, which, as described above, has hit the Kansas City area particularly hard.

Q: Has the cost of this program been included in cost of service in this rate case?

20 A: Yes, Company witness John P. Weisensee discusses these costs in his Direct Testimony
21 (the adjustment CS-44 section and his attached Schedule JPW-4).

² Diane Stafford, <u>KC Area Second Worst for Job Losses in Past Year</u>, The Kansas City Star (Sept. 28, 2011, 11:15 PM), http://www.kansascity.com/2011/09/28/3174100/kc-area-2nd-worst-for-job-losses.html

³ Steve Everly, <u>Utilities Feel Pinched by Growing Home Foreclosures</u>, The Kansas City Star (Sept. 21, 2011).

O: Does that conclude your testimony?

Yes, it does.
