RE: Peaceful Valley Lake Estates Wastewater Treatment Facility, MO-0041467, Facility Plan Comments

Dear Mr. Holmes:

The Missouri Department of Natural Resources' (Department) Water Protection Program has finalized the review of the Peaceful Valley Lake Estates Facility Plan submitted by Integrity Engineering on December 09, 2013. Please respond to the following questions and comments below:

1. It is my understanding that Peaceful Valley is interested in conducting a pilot project, which is not contemplated in the submitted Facility Plan. Within forty-five (45) days of receipt of this letter, please provide direction to the Department on what Peaceful Valley's intent with the submitted Facility Plan.
2. Separate of the pilot project question, the Facility Plan includes an increase in design flow from 40,750 to 71,800 gallons per day. An Antidegradation Review is required for all expanded discharges. The information provided in the submitted Facility Plan provides the necessary information for conducting an Antidegradation Review; however the Antidegradation Forms need submitted. The Antidegradation Forms are available on the Department's Antidegradation Implementation Page (<http://dnr.mo.gov/env/wpp/permits/antideg-implementation.htm>) :
 - a. Water Quality Review Assistance/Antidegradation Review Request (Form: MO780-1893)
 - b. Antidegradation Review Summary- Attachment A: Significant Degradation (Form: MO780-2021)

Construction, installation, expansion or modification of any collection system or wastewater treatment facility is prohibited until a construction permit is issued by the Department, per 10 CSR 20-6.010(4)(A).
