- 2.10.2 The customer is responsible for payment of all charges for services furnished to the Customer, as well as to all persons using the Customer's codes, exchange lines, facilities, or equipment, with or without the knowledge or consent of the Customer. The security of the Customer's Authorization Codes, presubscribed exchange lines, and direct connect facilities is the responsibility of the Customer. All calls placed using direct connect facilities, presubscribed exchange lines, or Authorization Codes will be billed to and must be paid by the Customer.
- 2.10.3 Reserved for Future Use.
- 2.10.4 The Company may utilize direct billing and LEC billing. The selection of the billing option is made by the Company. With LEC billing, the Customer's charges for Service(s) are billed with the Customer's bill for local service. If LEC billing is utilized, the rules and regulations applying to rendering and payment of the bill and late charges are the same as covered in the applicable LEC tariff. The Company will make every effort to post any credit due to the Customer account(s) on the Customer's next LEC bill. However, based on the date of the resolution of a dispute and the date credits must be provided to the LEC, it may be two or more billing cycles before a credit will be issued. The Company's name and toll-free telephone number will appear on the Customer's bill.

SECTION 2 - RULES AND REGULATIONS (cont'd)**2.11 Taxes**

All federal, state and local taxes, including sales taxes, use taxes, gross receipts taxes, and municipal utilities taxes, are billed as separate line items and are not included in the rates quoted herein. All charges other than taxes and franchise fees shall be submitted to the Commission for prior approval.

2.12 Returned Check Charge

A fee will be charged whenever a check or draft presented for payment for service is not accepted by the institution on which it is written.

2.13 Reconnection Charge

A reconnection fee will be charged when service is reestablished for Customers which have been disconnected due to non-payment. Payment of the reconnection fee and any other outstanding amounts will be due in full prior to reconnection of service.

SECTION 3 - DESCRIPTION OF SERVICE**3.1 Computation of Charges**

- 3.1.1 The total charge for each completed call may be a variable measured charge dependent on the duration, distance and time of day of the call. The total charge for each completed call may also be dependent only on the duration of the call, i.e. a statewide flat rate per minute charge. The variable measured charge is specified as a rate per minute which is applied to each minute. All calls are measured in increments as set forth in the Rates Section of this tariff. All calls are rounded up to the next whole increment. For all calls, fractions of an increment are rounded up to the next whole increment. For example, a call with a one (1) minute increment lasting 35 seconds will be rounded to one (1) minute. Calls with charges that include a fraction of a cent .5 or greater will be rounded to the next highest cent. For example, a Customer making a call with a computed charge of \$1.434 will be charged \$1.43 and a Customer making a call with a computed charge of \$1.435 will be charged \$1.44.
- 3.1.2 Where mileage bands appear in a rate table, rates for all calls are based upon the airline distance between the originating and terminating points of the call, as determined by the vertical and horizontal coordinates associated with the exchange (the area code and three digit central office code) associated with the originating and terminating telephone numbers. If the Customer obtains access to the Company's network by a dedicated access circuit, that circuit will be assigned an exchange for rating purposes based upon the Customer's main telephone number at the location where the dedicated access circuit terminates. The vertical and horizontal (V & H) coordinates for each exchange and the airline distance between them will be determined according to industry standards.

SECTION 3 - DESCRIPTION OF SERVICE (cont'd)

- 3.1.3 Timing begins when the called station is answered and two way communication is possible, as determined by standard industry methods generally in use for ascertaining answer, including hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. Recognition of answer supervision is the responsibility of the Underlying Carrier. Timing for each call ends when either party hangs up. The Company will not bill for uncompleted calls.
- 3.1.4 If the Customer uses a calling plan with a monthly recurring charge, that monthly charge is charged for every billing or calendar month in which a customer uses the service as defined by placing a call from a working telephone number.

3.2 Customer Complaints and/or Billing Disputes

Customer inquiries or complaints regarding service or accounting may be made in writing, in person, or by telephone to the Company at:

3340 W. Market St.
Akron, OH 44333
1-800-274-1015

Any objection to billed charges should be reported promptly to the Company. A dispute must be registered with the Company prior to the delinquent date of the charge, and the Customer must provide the disputed call details and the basis for any requested adjustment. Adjustments to Customers' bills shall be made to the extent that records are available and/or circumstances exist which reasonably indicate that such charges are not in accordance with approved rates or that an adjustment may otherwise be appropriate. Where overbilling of a subscriber occurs, due either to Company or subscriber error, no liability exists which will require the Company to pay any interest, dividend or other compensation on the amount overbilled.

SECTION 3 - DESCRIPTION OF SERVICE (cont'd)
