These tariff sheets are being issued July 29, 2013 to become effective on and after August 28, 2013.

The revisions being requested will implement the terms of SB142 which will become effective August 28, 2013. The primary changes resulting from this legislation are a phase-out of the solar rebate and ownership of the Renewable Energy Credits (RECs) created during the initial ten (10) years of operation passing to Ameren Missouri upon payment of a solar rebate.

Certain variances are being requested by the Company to allow additional or clarifying language in the Net Metering Application/Agreement to reduce customer confusion, expedite processing or to better reflect steps required to implement net metering. See pleading filed separately.

The tariff changes were discussed with Staff and their suggestions have been incorporated into the proposed tariffs.

Sincerely,

*Wendy K. Tatro*
