REBUTTAL TESTIMONY
OF
AMANDA C CONNER
MISSOURI AMERICAN WATER COMPANY
CASE NO. WR-2017-0285

1 **Introduction**

2 **Q. Please state your name and business address.**

3 A. Amanda C. Conner, PO Box 2230, Jefferson City, Missouri 65102.

4 **Q. Are you the same Amanda Conner who filed direct testimony in this case?**

5 A. Yes.

6 **Q. What is the purpose of this rebuttal testimony?**

7 A. One purpose of this rebuttal testimony is to respond to the direct testimony from the Missouri
8 Public Service Commission Staff ("Staff") and Missouri American Water Company
9 ("MAWC" or "Company") regarding cash working capital (CWC), tank painting expense,
10 and rate case expense. The other purpose of this rebuttal testimony is to update the
11 management expense adjustment.

12 **Cash Working Capital**

13 **Q. Did OPC review MAWC's CWC analysis?**

14 A. OPC did a limited review of MAWC's CWC analysis.

15 **Q. Did Staff adjust MAWC's CWC analysis?**

16 A. Yes.

17 **Q. Does OPC agree with Staff's adjustments?**

1 A. Yes. First, changing the “from” and “thru” dates from “1/1/2016 – 12/31/2016” to the
2 respective quarters is the best way to calculate the expense lags for federal income tax and
3 state income tax. Second, preferred stock dividend payments should not be included in the
4 expense lag calculation. Stock payments only benefit the shareholders; therefore, they should
5 not be included in the ratemaking process.

6 **Tank Painting Expense**

7 **Q. Has MAWC included a tank painting expense tied to a future test year?**

8 A. Yes. MAWC applied inflation factors to 2017, 2018, and 2019 tank painting totals to arrive
9 at a future test year level of expense with a 3-year amortization.

10 **Q. Does OPC oppose MAWC’s calculation?**

11 A. Yes. OPC opposes MAWC’s future test year calculations. OPC witness, Dr. Geoff Marke,
12 has provided detailed testimony discussing OPC’s opposition to MAWC’s future test year
13 proposal.

14 **Q. Does OPC support Staff’s adjustment of MAWC’s tank painting expense?**

15 A. Yes. MAWC’s projected level of tank painting expense ending May 31, 2019 of \$2,613,672
16 is substantially higher than Staff’s normalized level of \$1,462,518. Staff used a five-year
17 average review for the period ending June 30, 2017. OPC believes that Staff’s calculation is
18 considerably more accurate because the amounts are known and measurable, while
19 Company’s projected numbers are unknown, unmeasurable, and seem overstated.

20 **Rate Case Expense**

21 **Q. Does OPC agree with Staff regarding the amortization of the rate case expense from**
22 **Case No. WR-2015-0301?**

1 A. Yes. In the Non-Unanimous Revenue Requirement Stipulation and Agreement (“S&A”) filed
2 in Case No. WR-2015-0301, the S&A allows MAWC to recover in rates 50% of its
3 expenditures amortized over 30 months. The language used in the S&A is amortization
4 instead of normalization in regards to the recovery of rate case expense, and OPC agrees with
5 Staff to allow MAWC to collect the unamortized balance of rate case expense from Case No.
6 WR-2015-0301.

7 **Management Expense Adjustment**

8 **Q. Have you updated the Management Expense Analysis since direct testimony?**

9 A. Yes. However, OPC has requested invoices from the Company as of this rebuttal
10 testimony, and OPC is still waiting on that information. Therefore, those invoices are
11 absent from my analysis. Once I review all of the requested invoices, my adjustment will
12 be complete.

13 **Q. What is the amount of adjustment you are making?**

14 A. As of this rebuttal testimony, the amount of management expenses removed is \$218,583.
15 The intent of removing this amount is to protect ratepayers from involuntarily reimbursing
16 MAWC for inappropriate and excessive employee expense charges. These charges include
17 trips to Canada, meetings and visits to other American Water Company (AWC) affiliates
18 partly allocated to MAWC, holiday and reception meals, legislative meetings, and other
19 inappropriate charges.

20 **Q. Describe how you calculated the adjustment for MAWC.**

21 A. I calculated a total amount of inappropriate and excessive charges from a sample of 15
22 Company officer employees for each month in the test year for this rate case. I divided
23 this total amount by 15 to get an average excessive charge per management employee. I
24 multiplied this average amount by MAWC’s 205 management employees. The total test

1 year estimated amount of inappropriate charges is \$2,001,672. I applied the Missouri Only
2 Factor of 18.2% to approximate the dollar amount of inappropriate charges to MAWC's
3 test year accounts. Finally, I normalized this adjustment by recognizing the assumption that
4 lower and middle level management may not incur expenses at the same level as officer
5 employees. This adjustment reduced the total allocation of the inappropriate charges to
6 remove from test year expense accounts by 40 percent. As mentioned earlier, OPC
7 recommends disallowing from recovery a total of \$218,583 in inappropriate management
8 expenses at this time.

9 **Q. What does OPC consider management employees?**

10 A. OPC considers all non-union workers, with the exception of independent contractors, as
11 management employees.

12 **Q. How did OPC obtain the number of management employees and the Missouri only
13 factor for this analysis?**

14 A. OPC received this information from talks with the Company.

15 **Q. Does this conclude your rebuttal testimony?**

16 A. Yes, it does.
