

1.8 How many “prepaid resellers” have received certificates of service authority from the Missouri Public Service Commission:

- A. to provide basic local telecommunication services**
- B. to provide for the resale of basic local telecommunication services**
- C. to provide local exchange service as distinguished from “basic local telecommunications services” by Staff in this proceeding**
- D. to provide for the resale of local exchange service as distinguished from the resale of “basic local telecommunication services” by Staff in this proceeding**
- E. to provide local services other than “basic local telecommunication service” or “local exchange services” as defined by Staff**

Answer: An up-to-date list of C-LECs providing service may be found listed on the Commissions’ Web site (www.psc.state.mo.us) and the list distinguishes the mode of operation, including prepaid resellers. The precise authority granted to the C-LECs is unknown; however, the information is available from the various Report and Orders granting certification. These R&Os are publicly available documents and may be viewed at the Commission’s offices. Office hours are from 8 to 4 pm for BPS’s research convenience.
